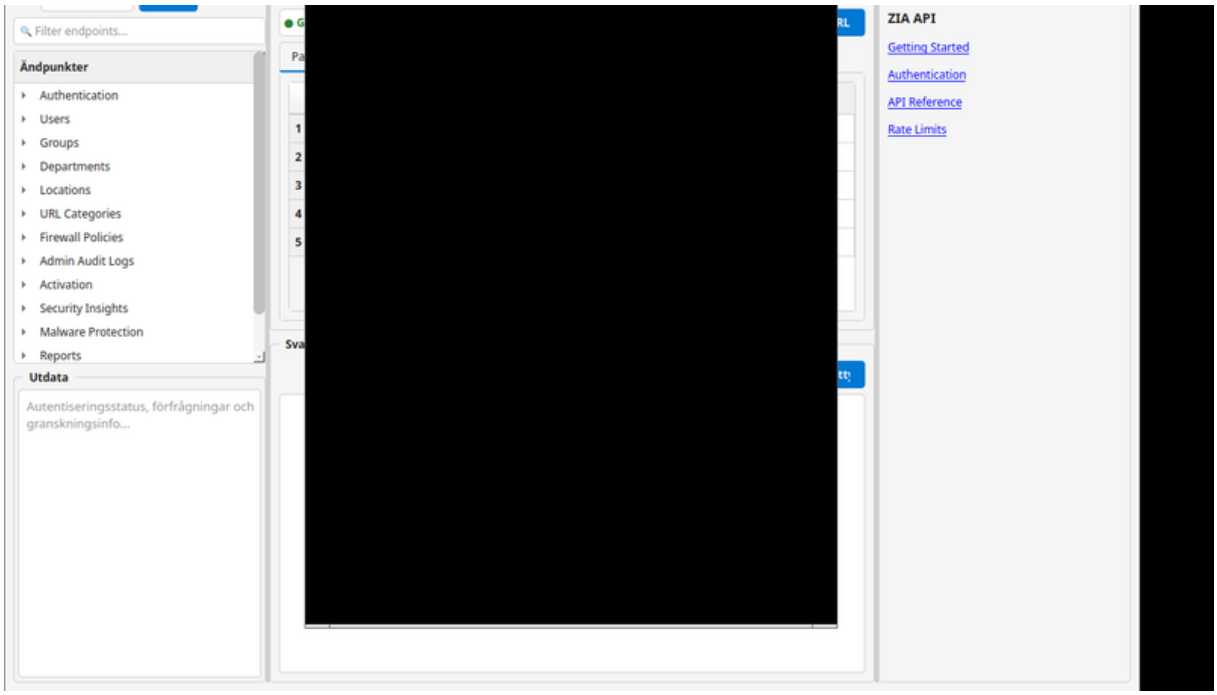
Communication

14 apps

Board Builder

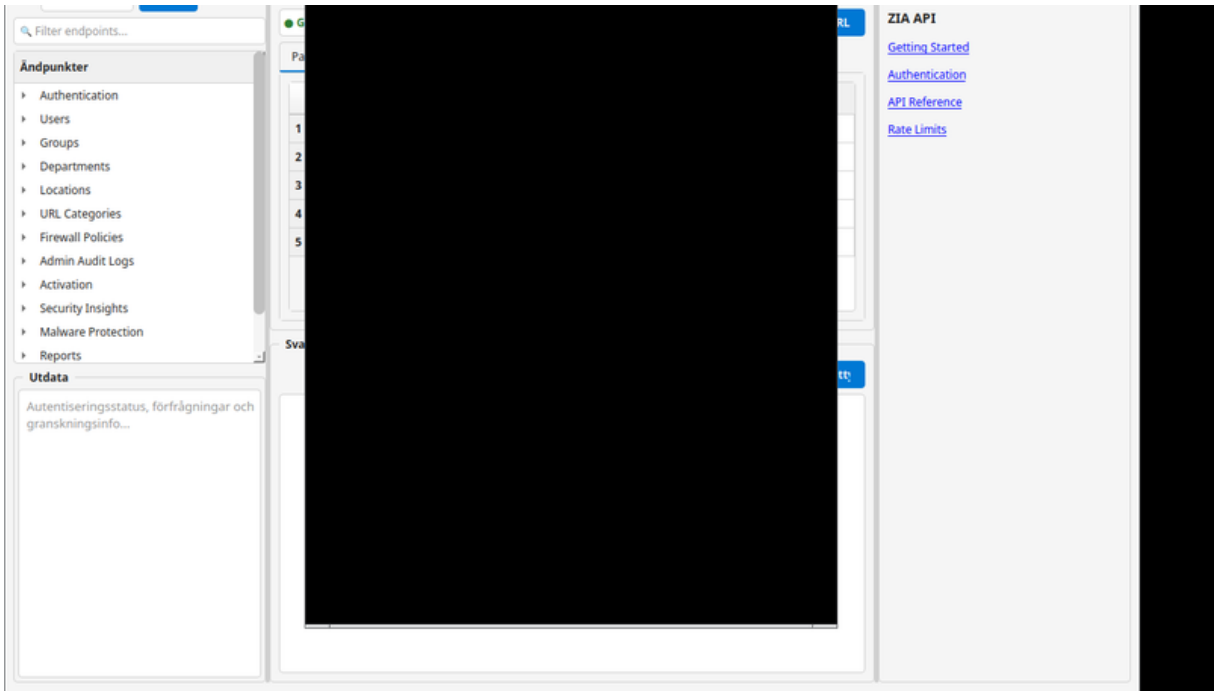
Create custom AAC communication boards with ARASAAC pictograms. Perfect for parents, educators, and speech therapists who want to build personalized communication tools. Export as PDF or PNG for printing.



autismappar.se/launcher/apps/board-builder

Talk Board

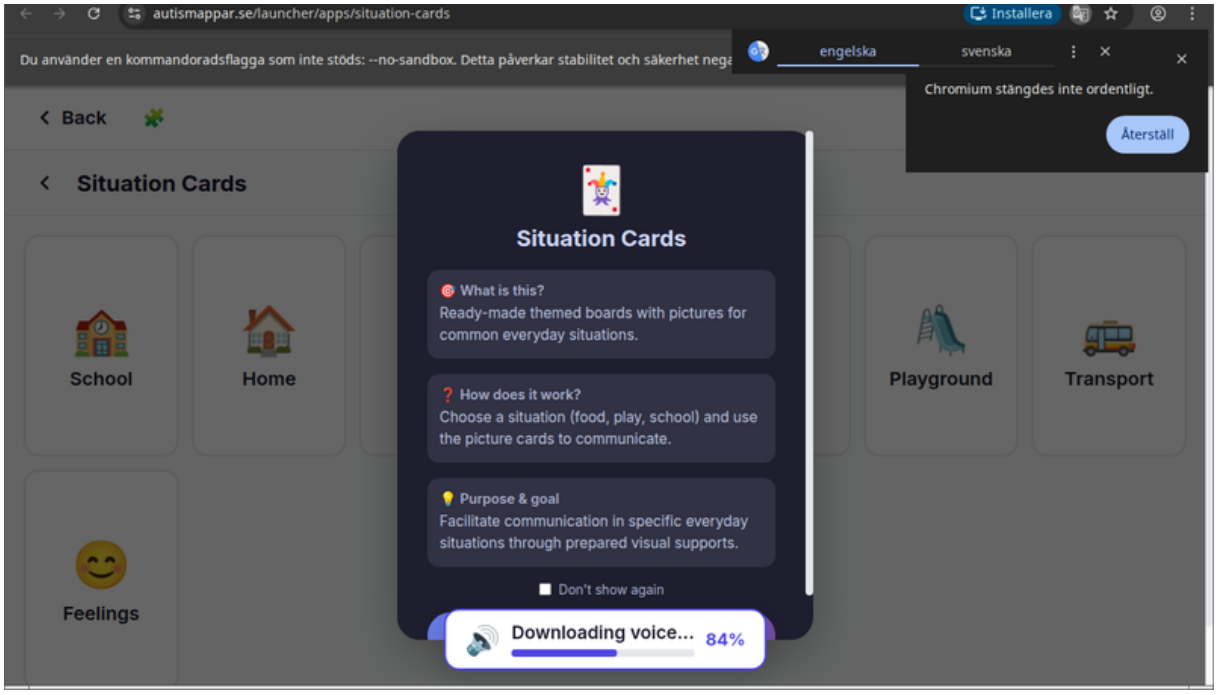
An interactive communication board where users tap pictures to build sentences that are read aloud. Includes basic everyday phrases and supports loading custom boards. Features Swedish text-to-speech.



autismappar.se/launcher/apps/talk-board

Situation Cards

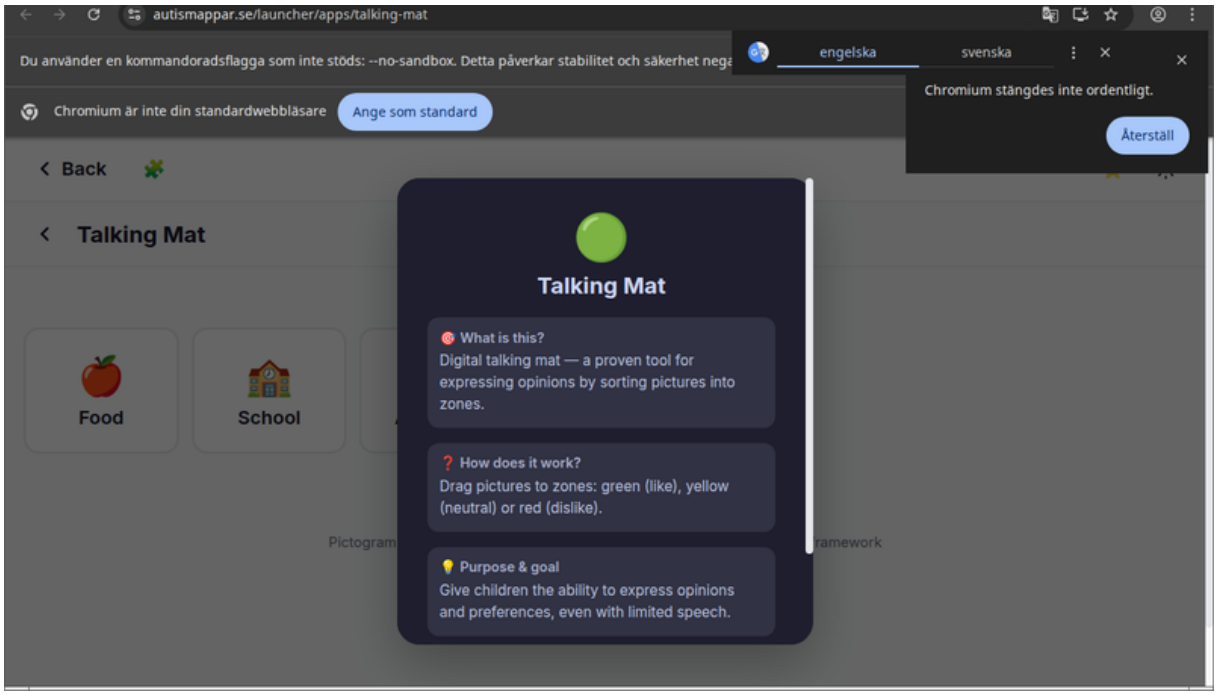
Ready-made topic boards with pictograms for everyday situations like school, food, hygiene, and doctor visits. Helps children communicate in specific contexts with relevant images and words.



autismappar.se/launcher/apps/situation-cards

Talking Mat

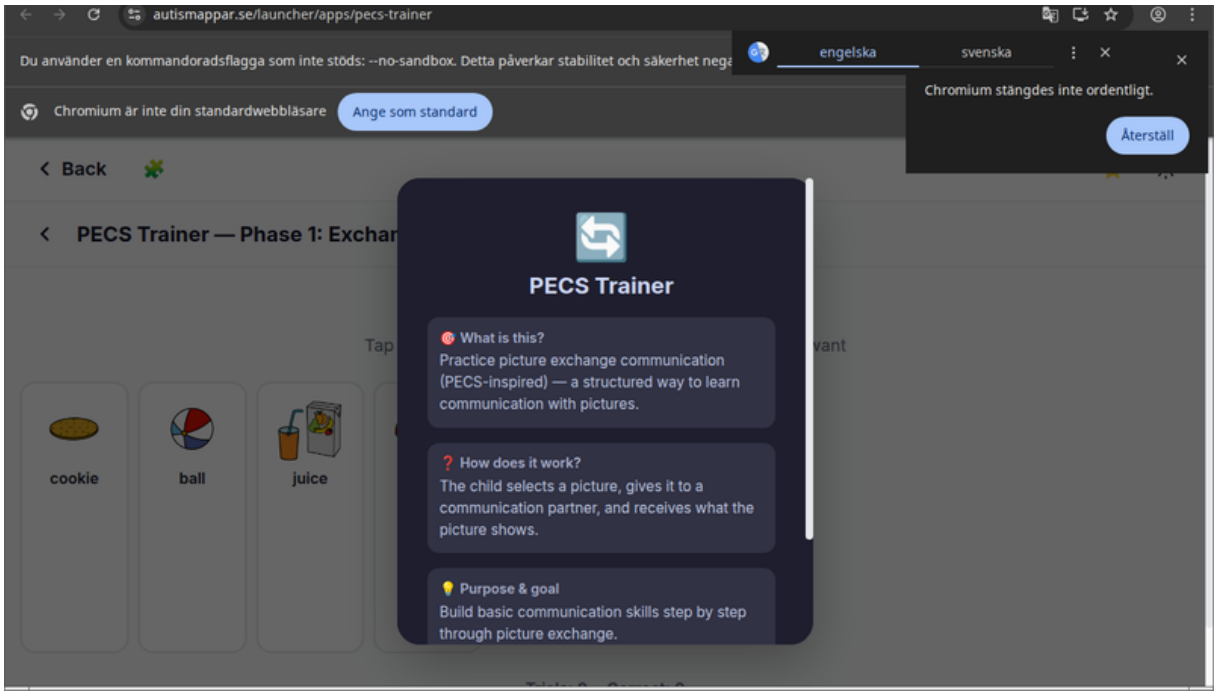
Inspired by the Talking Mats™ method — children express opinions by sorting pictures into zones (like, okay, don't like). Perfect for capturing the child's perspective in discussions about food, school, and activities.



autismappar.se/launcher/apps/talking-mat

PECS Trainer

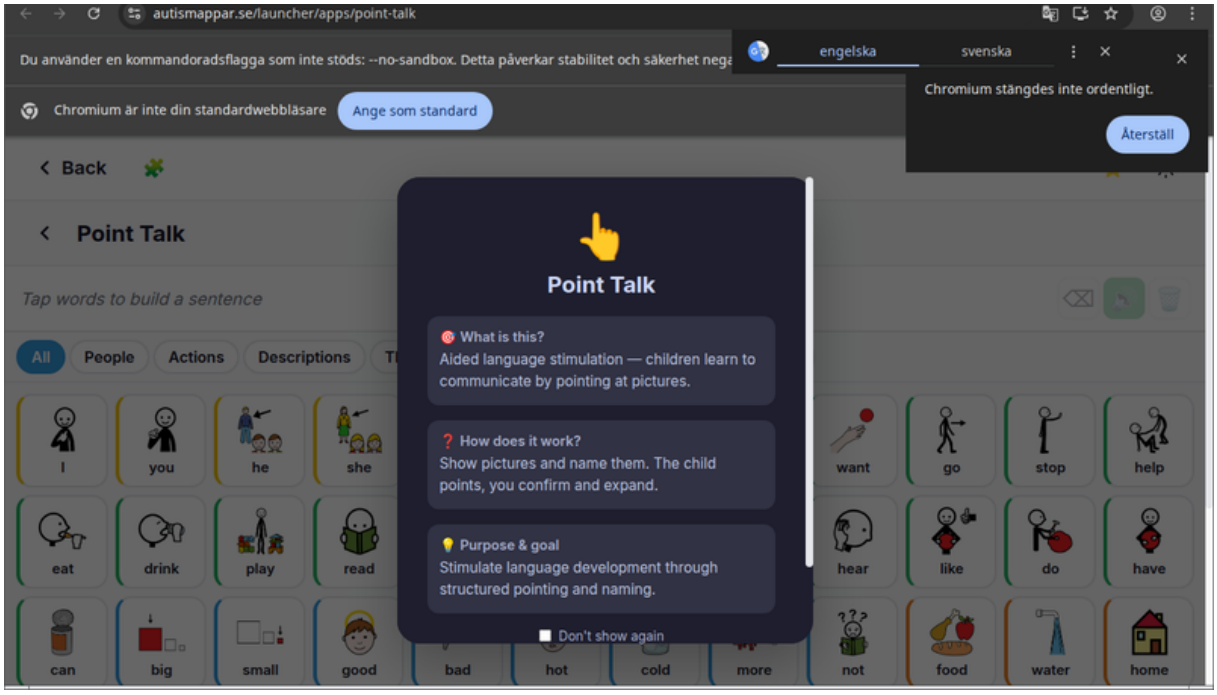
Practice Picture Exchange Communication System (PECS) digitally. Children practice selecting the right picture and exchanging it for desired activities or objects. Structured progression through PECS phases.



autismappar.se/launcher/apps/pecs-trainer

Point Talk

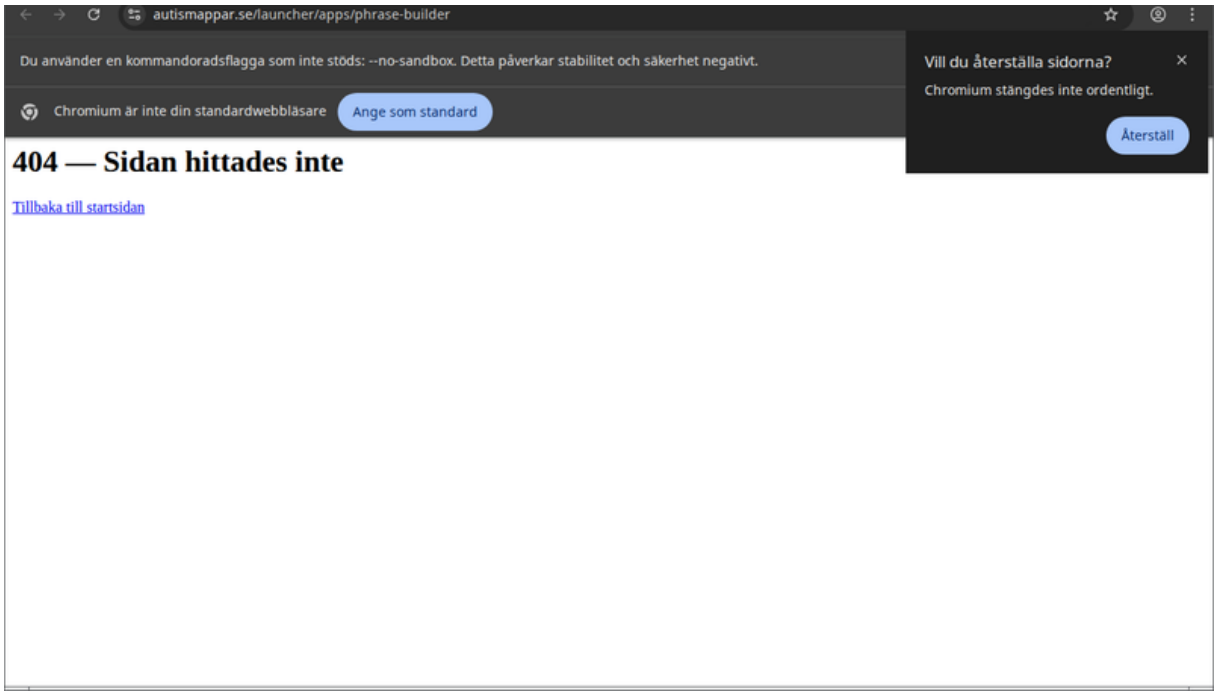
Aided language stimulation where children learn by pointing at pictures while adults model language. Based on the aided language stimulation method to build receptive and expressive language.



autismappar.se/launcher/apps/point-talk

Phrase Builder

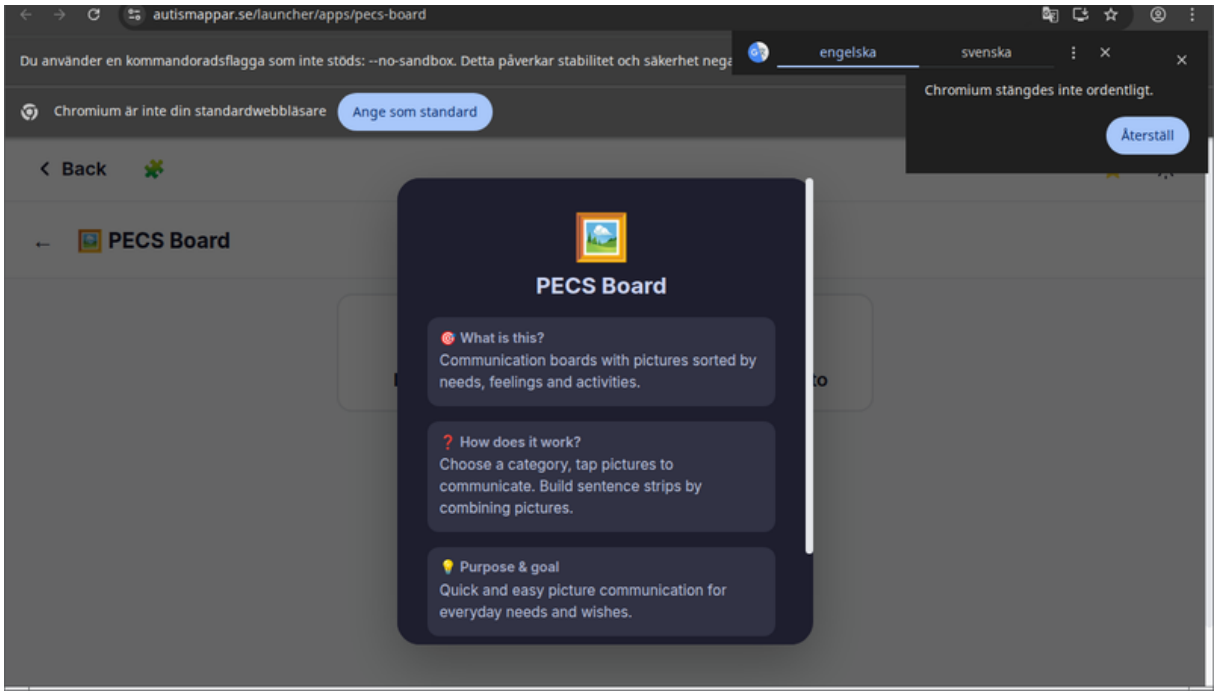
Build sentences visually with pictograms. Children drag and place pictures in the right order to create sentences. Supports understanding of sentence structure and word order.



autismappar.se/launcher/apps/phrase-builder

PECS Board

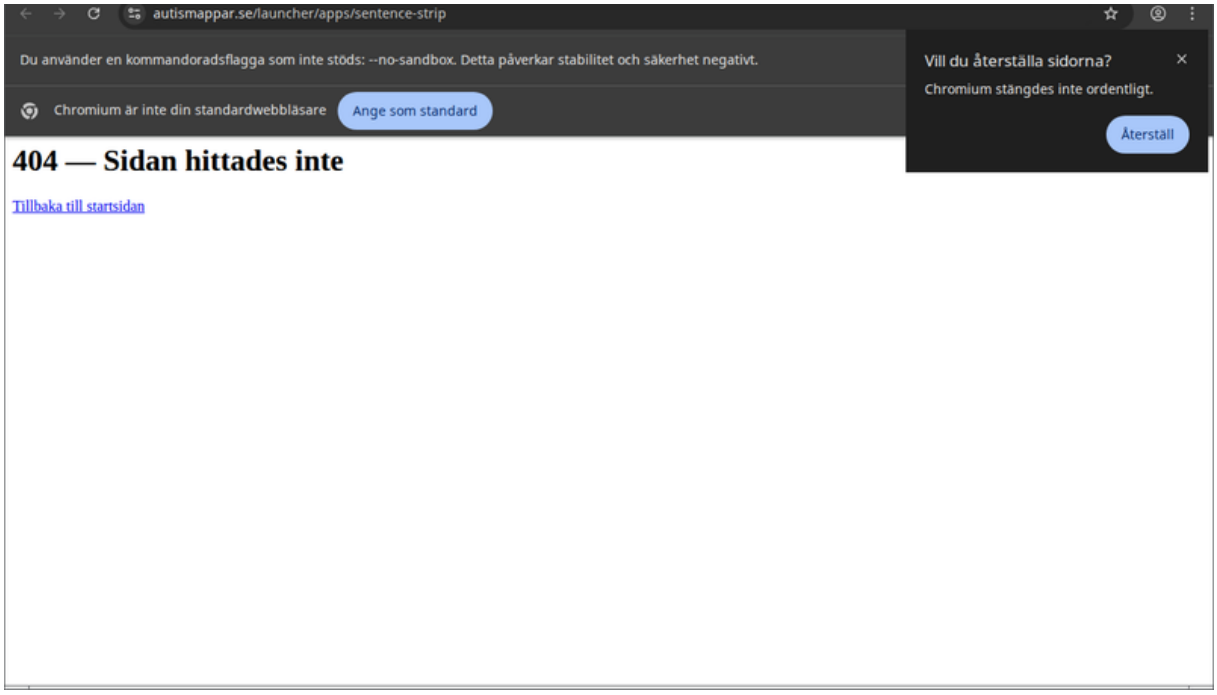
Digital PECS communication boards with categorized pictures. Users build their vocabulary and can quickly find the right picture to communicate needs and wishes.



autismappar.se/launcher/apps/pecs-board

Sentence Strip

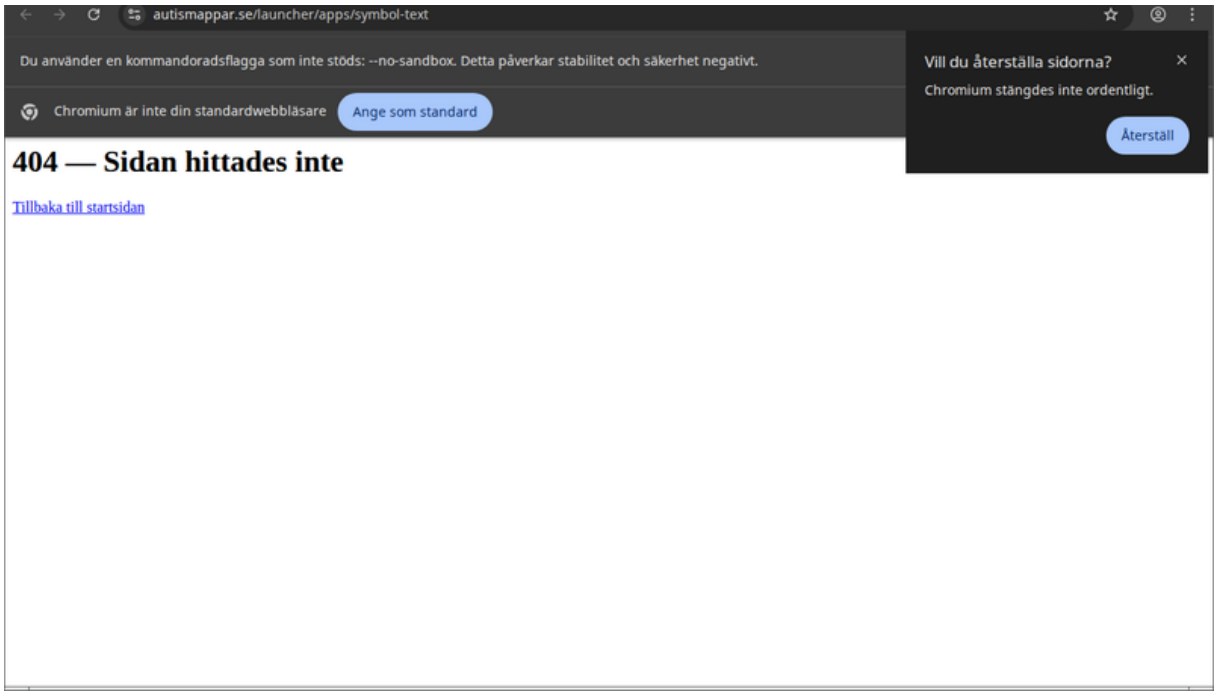
Build sentences with PECS sentence strips following Phase IV-VI. Children place pictures on a strip to create complete sentences that can then be read aloud.



autismappar.se/launcher/apps/sentence-strip

Symbol Text

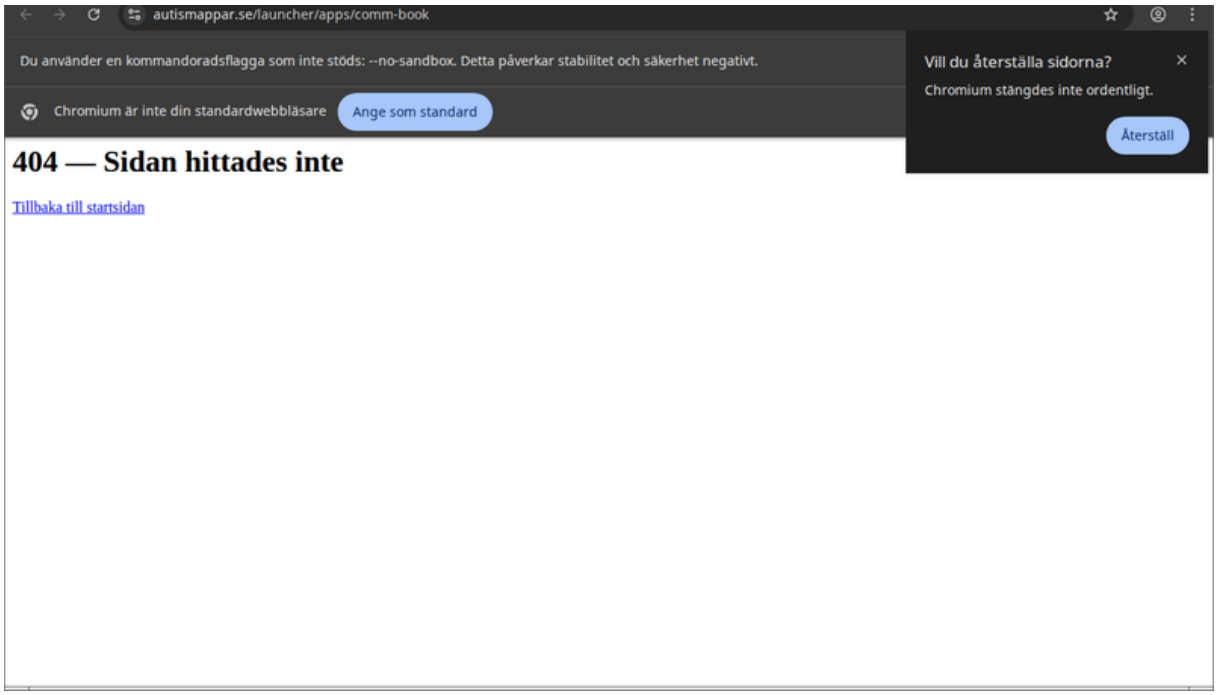
Type text and see pictograms appear above each word automatically. A powerful tool for creating symbol-supported text — perfect for custom instructions, stories, and messages.



autismappar.se/launcher/apps/symbol-text

Communication Book

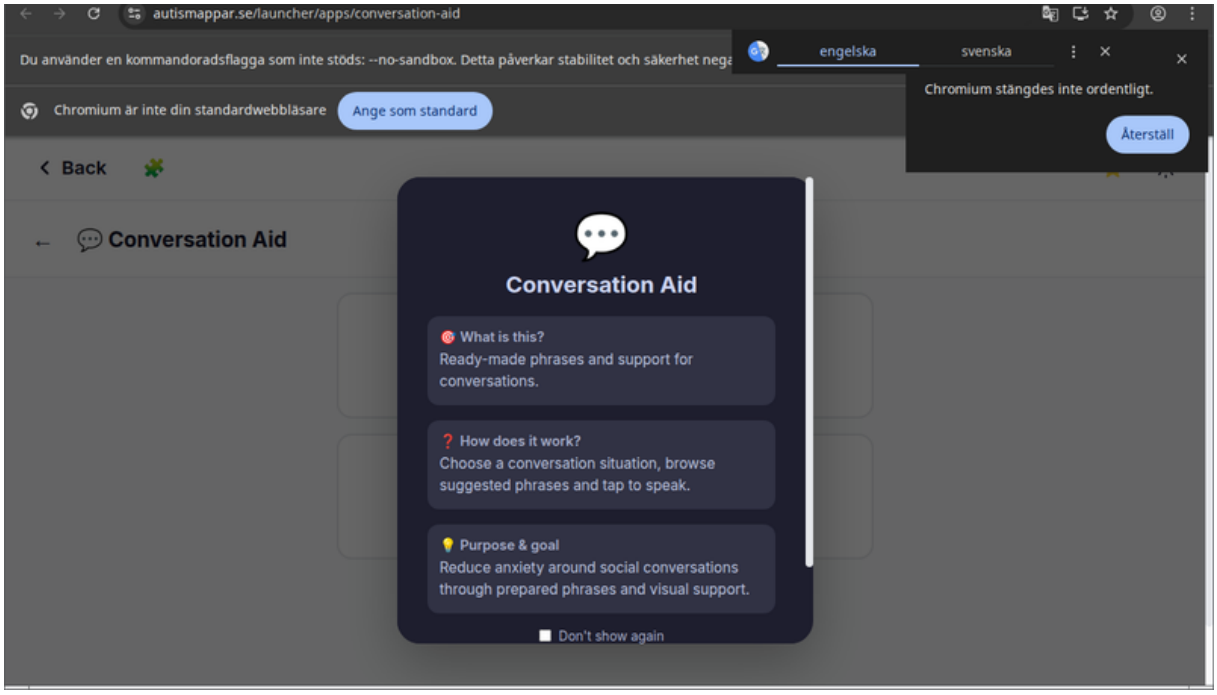
A digital communication book with tabs and categories. Organize pictograms, photos, and words in a personal book that children can browse to communicate.



autismappar.se/launcher/apps/comm-book

Conversation Aid

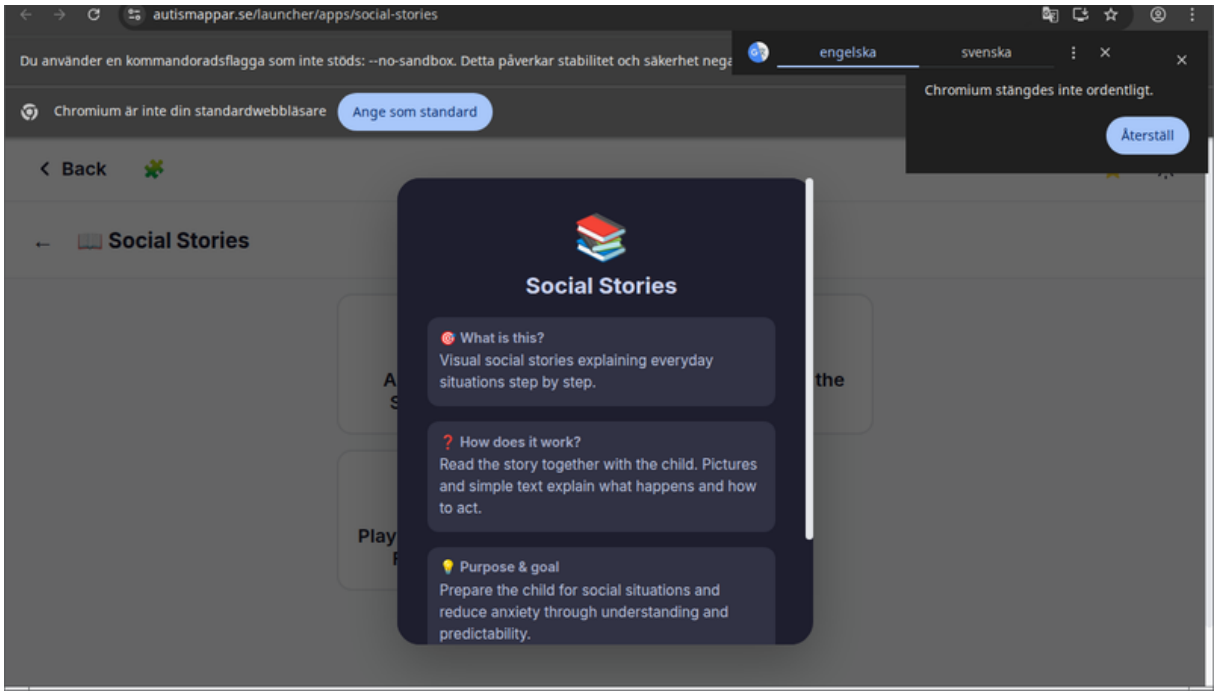
Ready-made phrases and sentences for common conversational situations. Helps people who need support to participate in conversations by selecting pre-formulated responses and questions.



autismappar.se/launcher/apps/conversation-aid

Social Stories

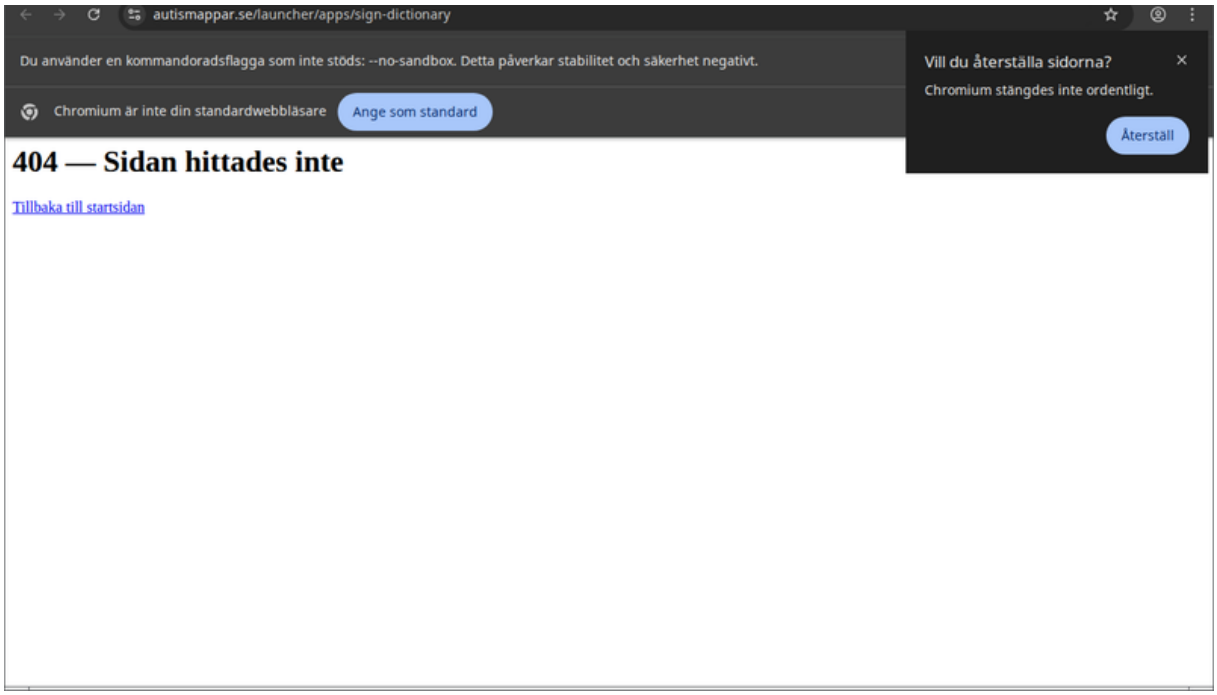
Visual stories that explain social situations step by step. Helps children understand and prepare for new or difficult everyday situations.



autismappar.se/launcher/apps/social-stories

Sign Dictionary

Learn Swedish Sign Language (TAKK) with video and images. Search common signs and see how they're performed. Perfect complement to picture communication.



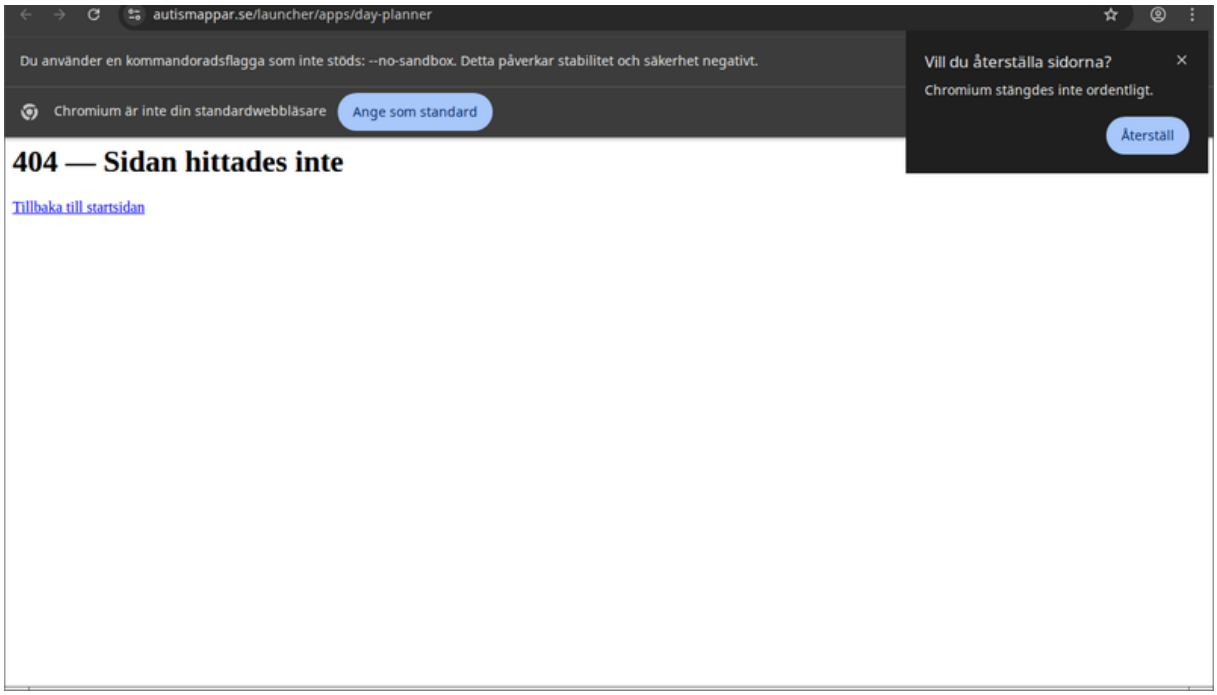
autismappar.se/launcher/apps/sign-dictionary

Daily Routines

8 apps

Day Planner

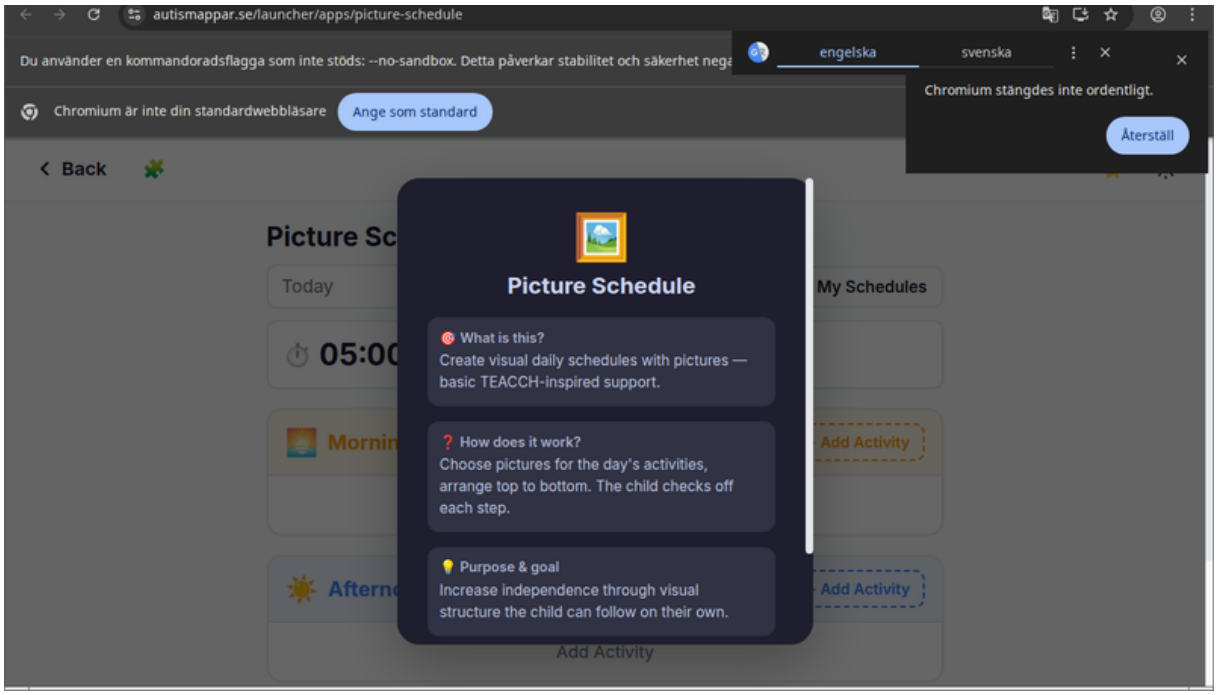
Plan your day with a visual timeline. Drag and drop activities to create clear structure. Helps children understand what will happen and in what order.



autismappar.se/launcher/apps/day-planner

Picture Schedule

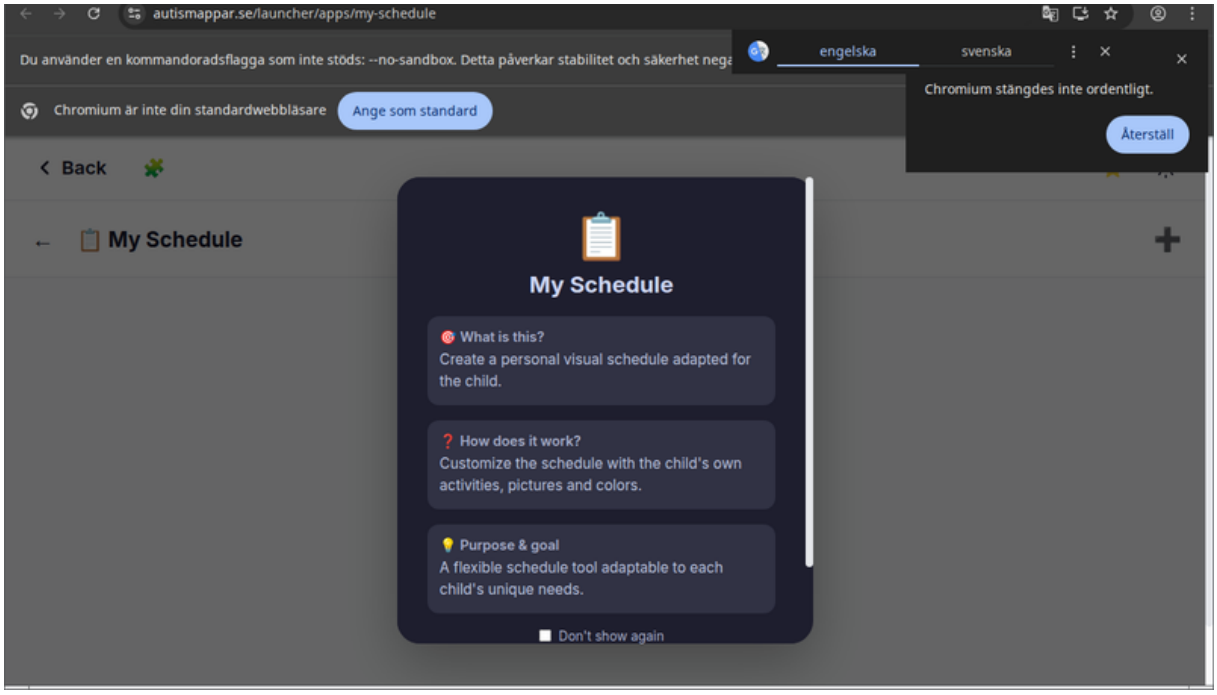
Create visual daily schedules with pictures and pictograms. Mark completed moments and see what's coming next. Customizable for morning, afternoon, and evening.



autismappar.se/launcher/apps/picture-schedule

My Schedule

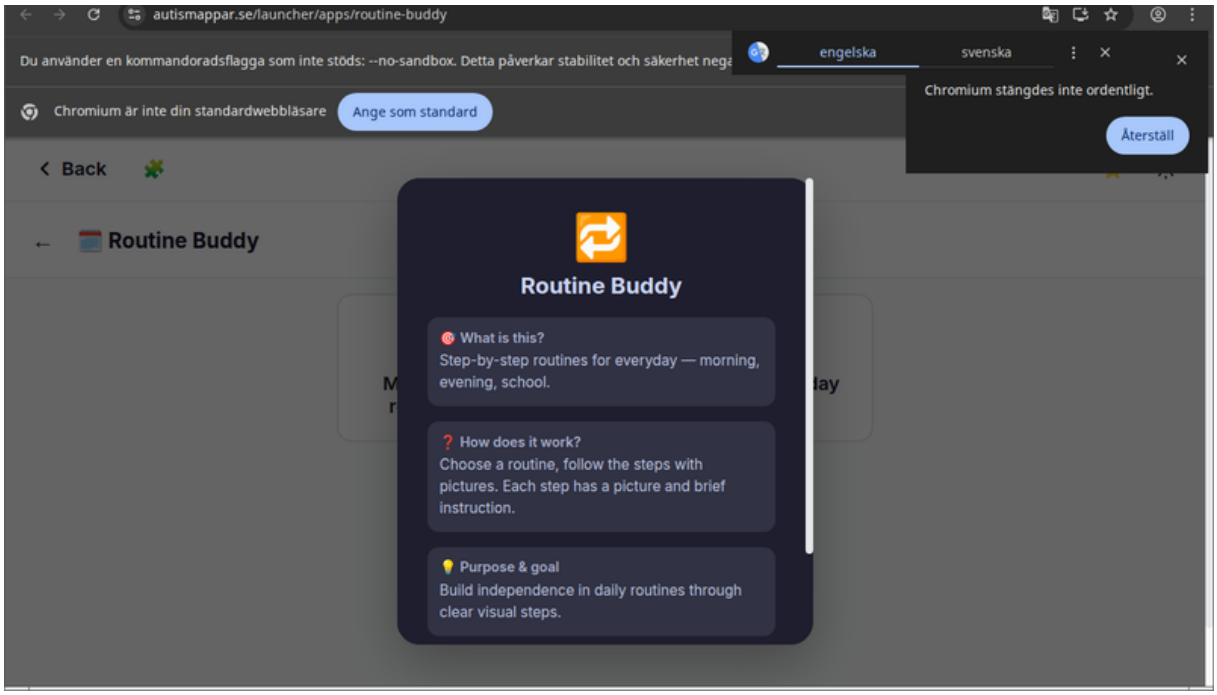
Create your own personal schedule with pictures and text. A flexible tool where users build their unique visual support for the day or week.



autismappar.se/launcher/apps/my-schedule

Routine Buddy

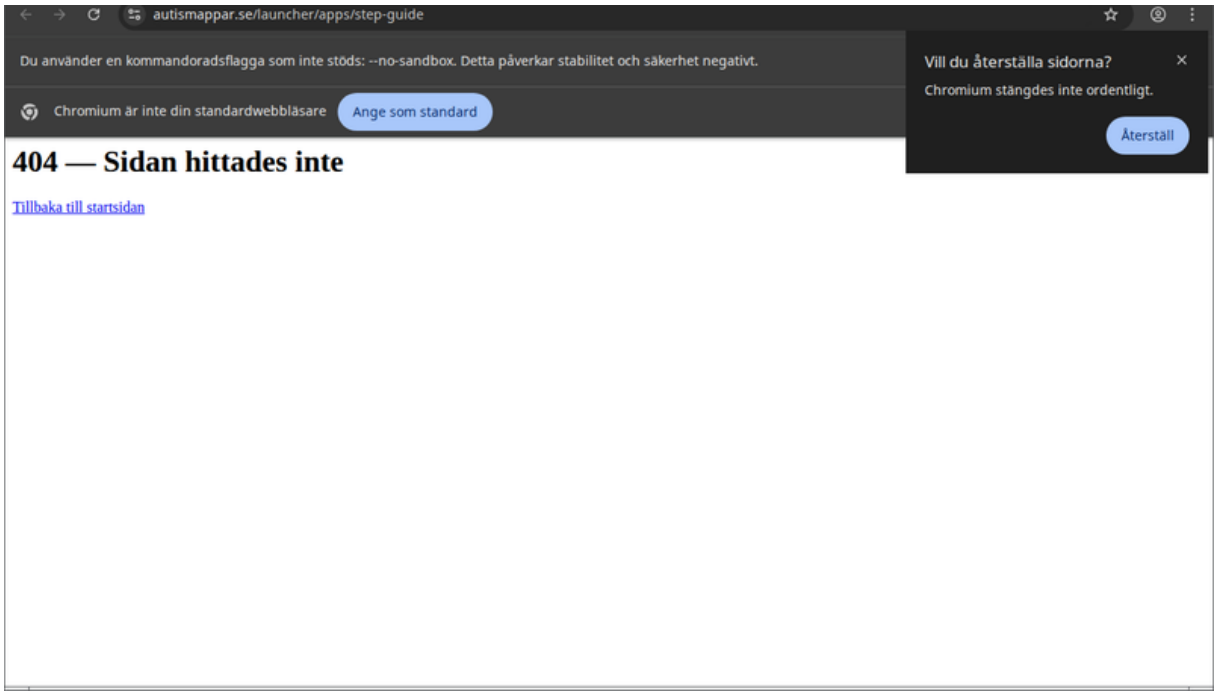
Step-by-step routines with pictures for everyday activities like brushing teeth, getting dressed, and cooking. Children check off each step and receive visual confirmation.



autismappar.se/launcher/apps/routine-buddy

Step Guide

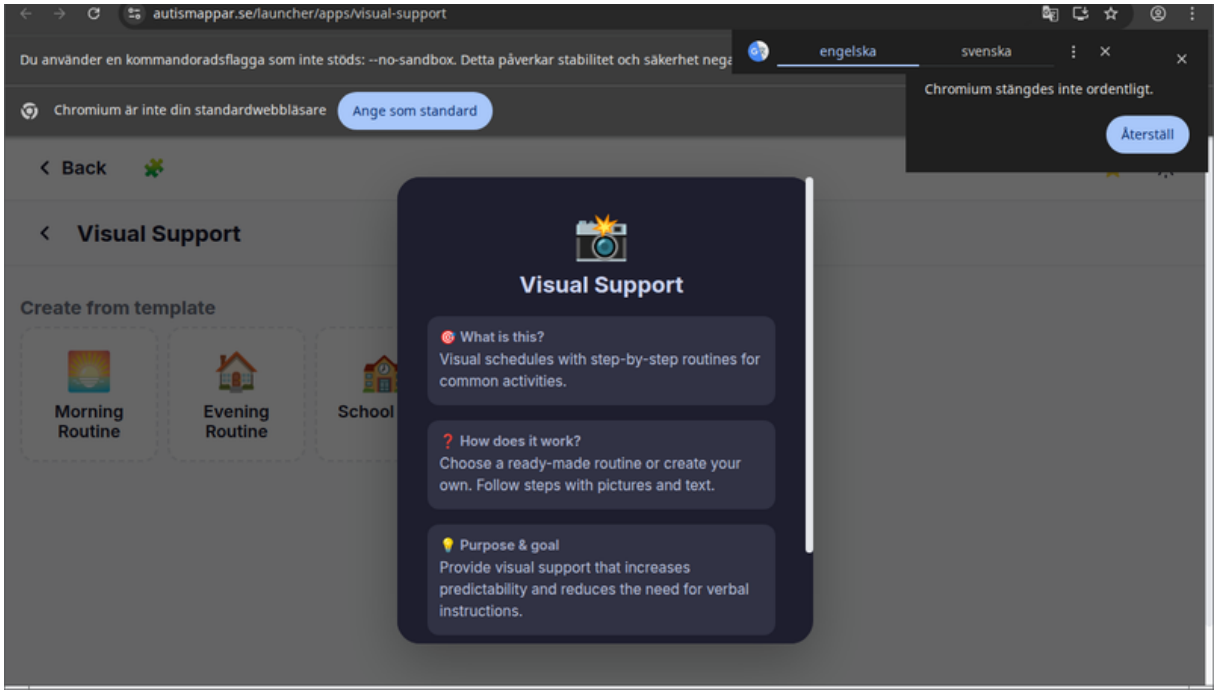
Break complex tasks into clear visual steps. Perfect for making difficult moments manageable by breaking them down into small, concrete sub-goals.



autismappar.se/launcher/apps/step-guide

Visual Support

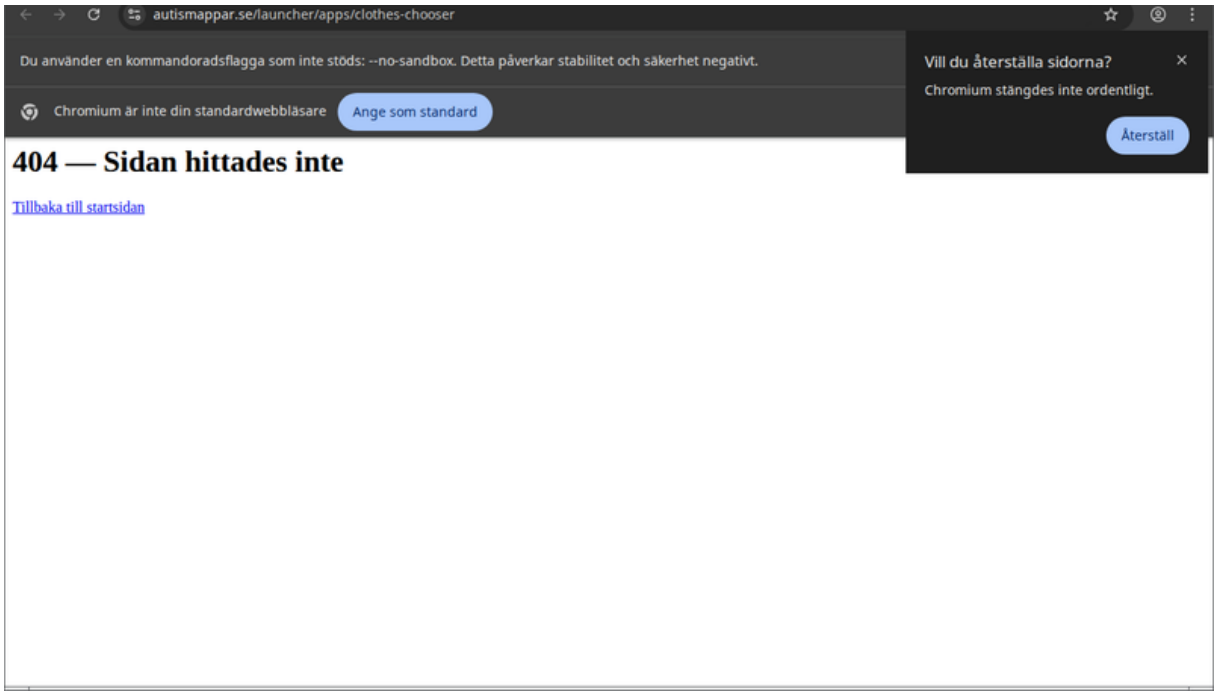
Visual schedules with step-by-step routines for common daily moments. Includes ready-made templates for morning routines, evening routines, and other daily activities.



autismappar.se/launcher/apps/visual-support

Clothes Chooser

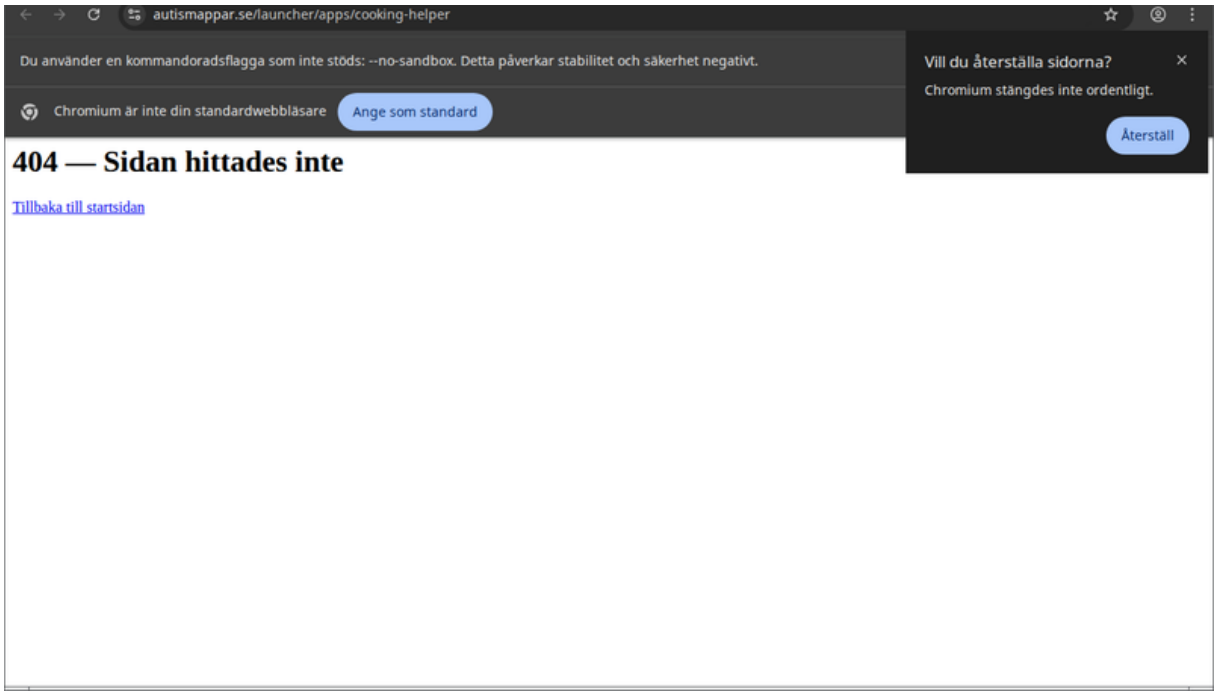
Help choosing the right clothes based on weather and planned activity. Visual support that makes children more independent when getting dressed.



autismappar.se/launcher/apps/clothes-chooser

Cooking Helper

Visual cooking instructions with pictures for each step. Simple recipes adapted for people who need clear visual guidance in the kitchen.



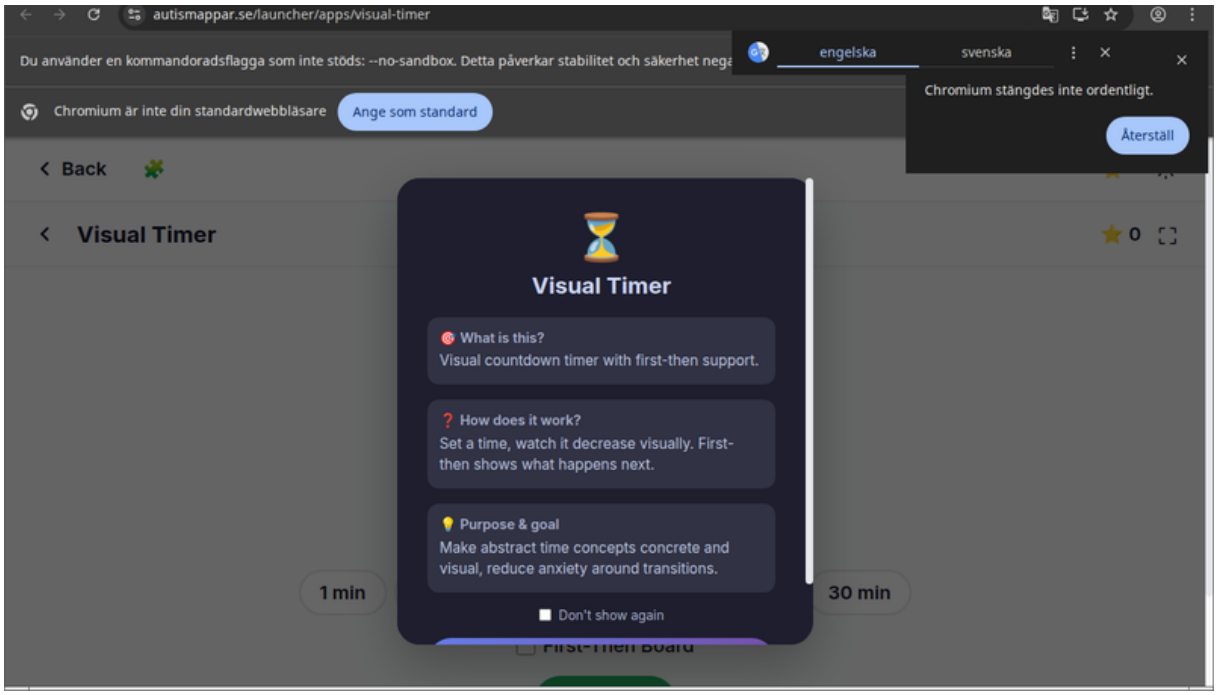
autismappar.se/launcher/apps/cooking-helper

Time & Planning

6 apps

Visual Timer

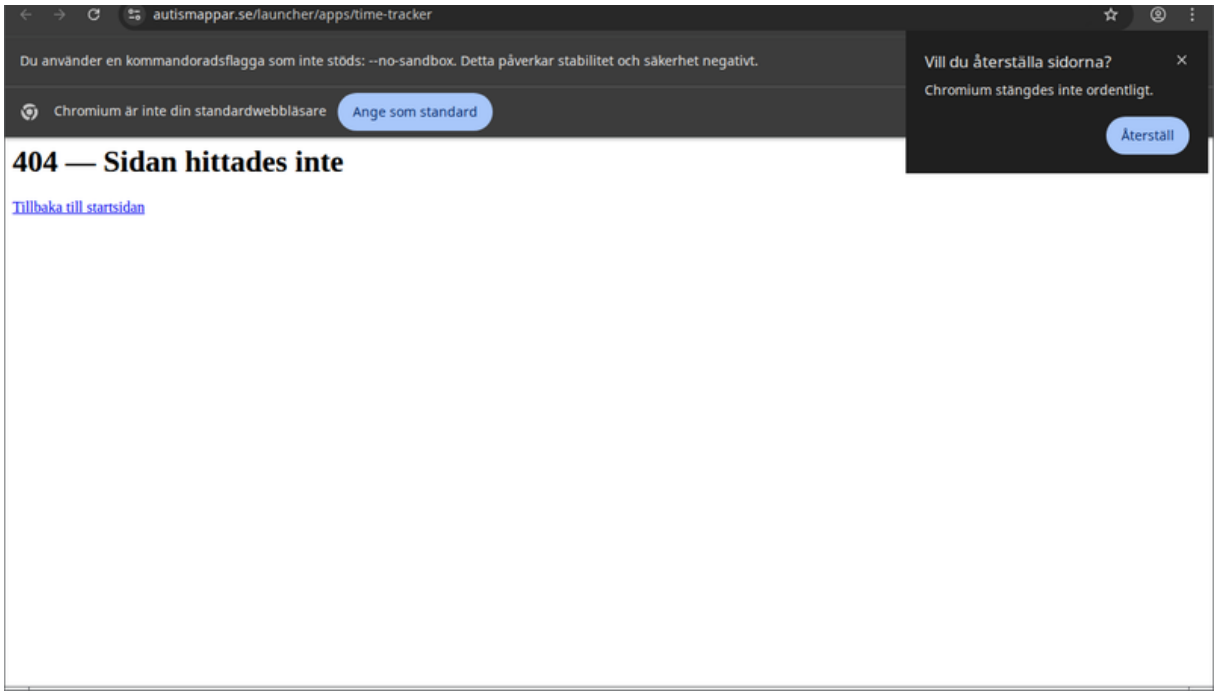
Visual countdown timer with color-coded display. Includes a first-then board showing what happens after the timer. Helps children understand time concepts.



autismappar.se/launcher/apps/visual-timer

Time Tracker

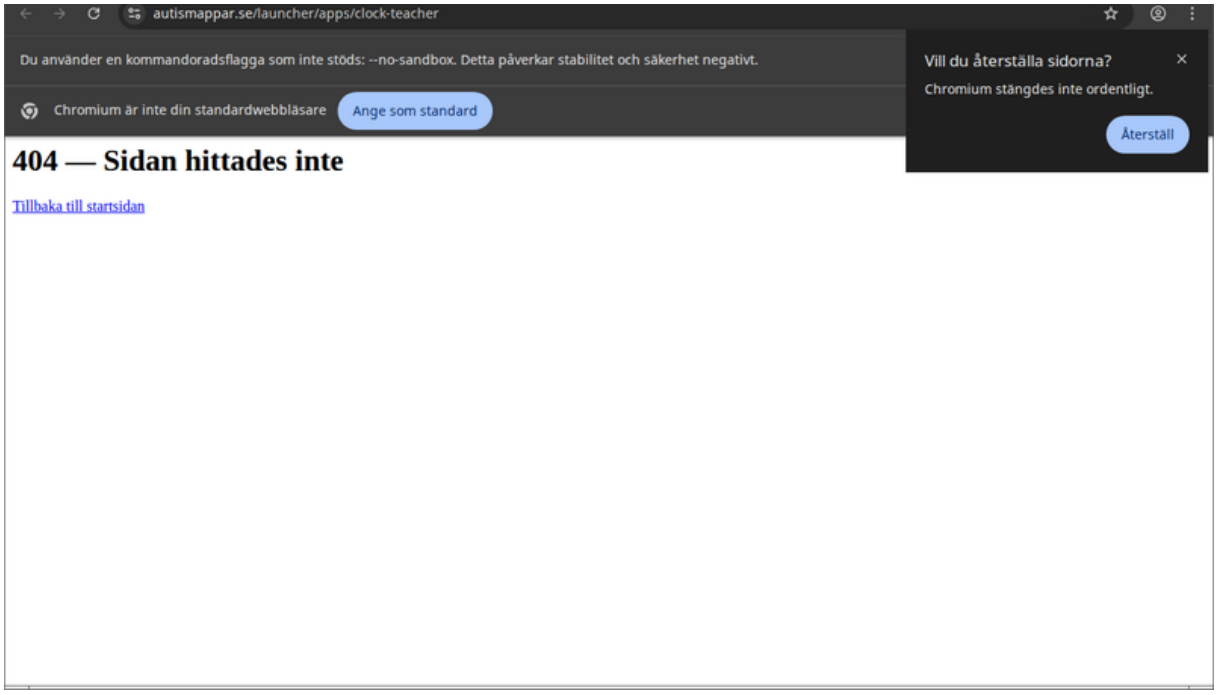
Visual timer to keep track of time during activities. Clear visual representation of remaining time makes the concept of time concrete.



autismappar.se/launcher/apps/time-tracker

Clock Teacher

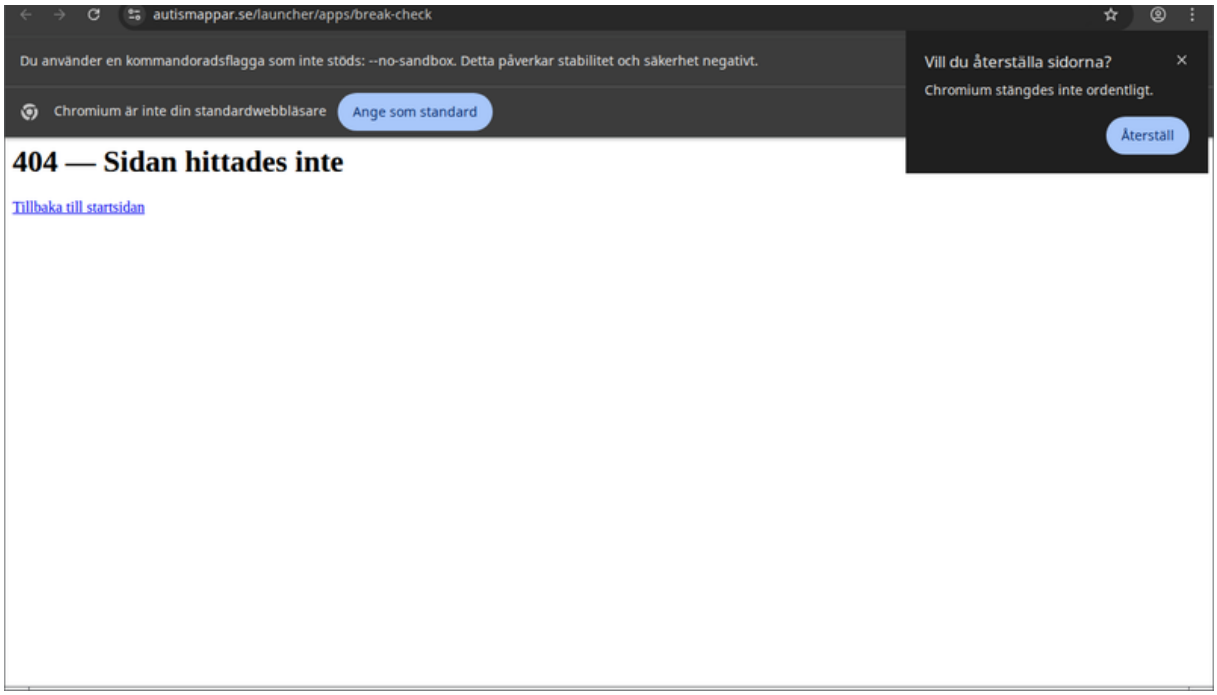
Learn to read the clock with interactive exercises. Practice with both analog and digital clocks, from full hours to minutes. Adjustable difficulty.



autismappar.se/launcher/apps/clock-teacher

Break Check

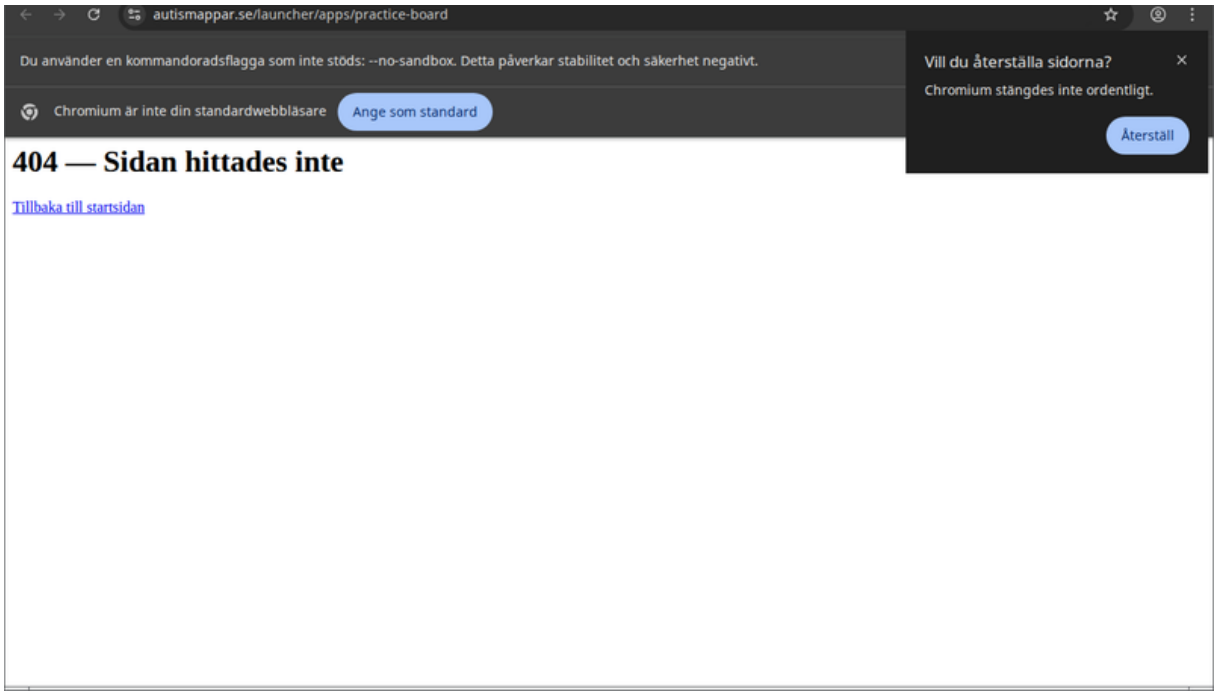
Regular break reminders with suggested activities. Helps children take breaks at the right time with clear visual signals and suggested break activities.



autismappar.se/launcher/apps/break-check

Practice Board

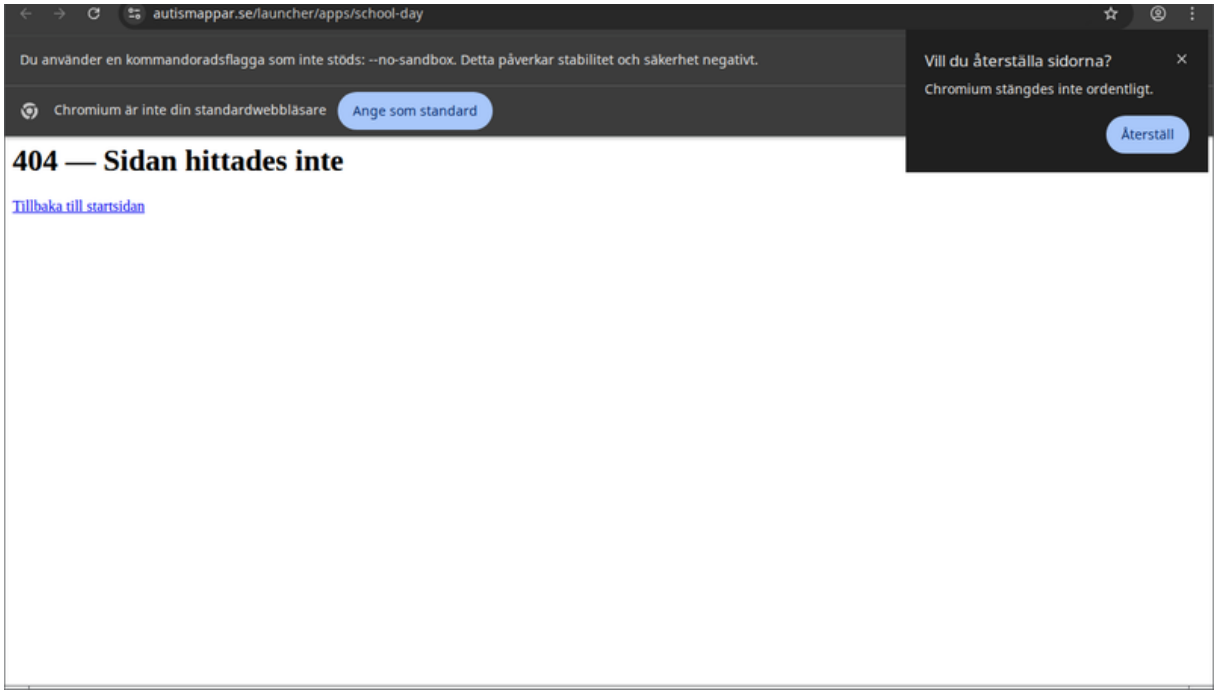
Track practice sessions and see progress over time. A motivating tool that visualizes how much the child has practiced and rewards consistency.



autismappar.se/launcher/apps/practice-board

School Day

Follow the school day schedule with visual support. See which lessons and activities are ahead and check them off as they pass. Provides security and predictability.



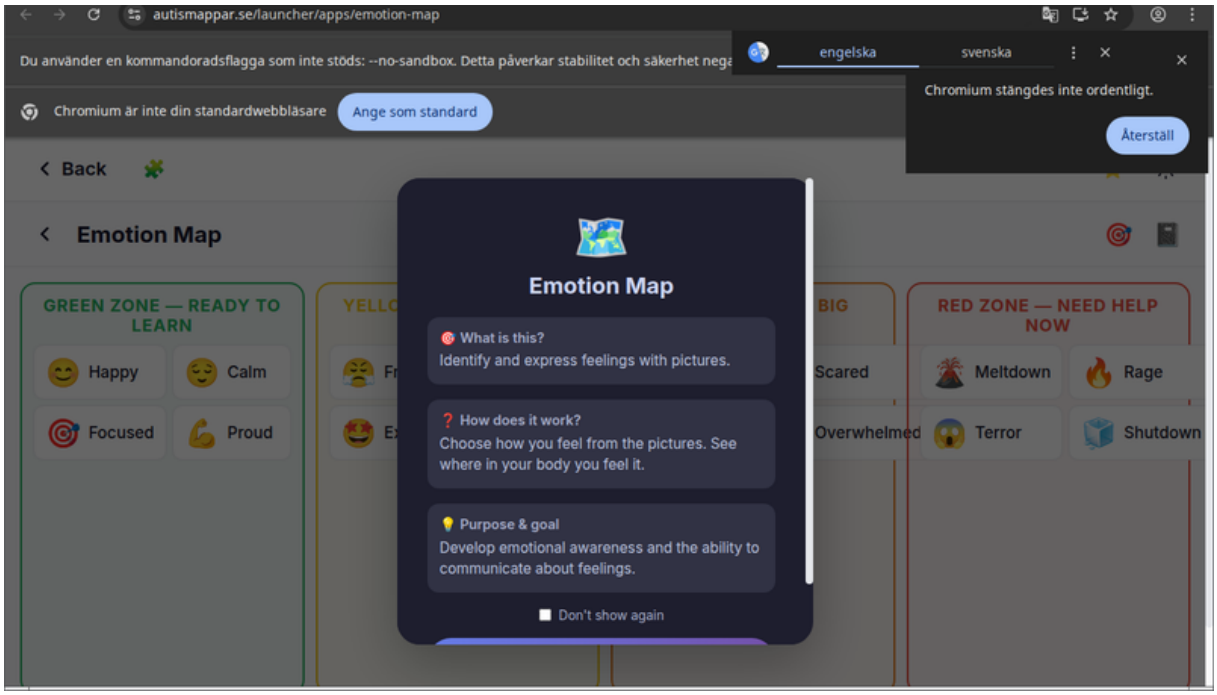
autismappar.se/launcher/apps/school-day

Emotions & Calm

6 apps

Emotion Map

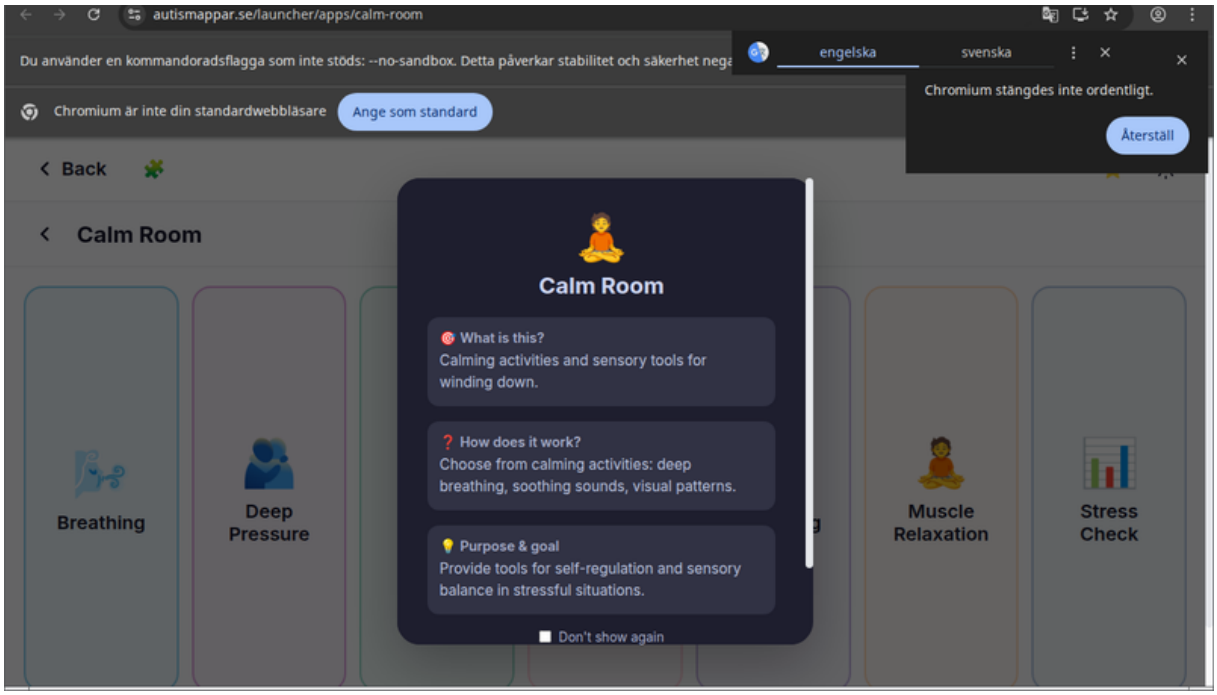
Identify and express emotions with pictures and colors. Helps children put words to their feelings and understand what different emotions mean.



autismappar.se/launcher/apps/emotion-map

Calm Room

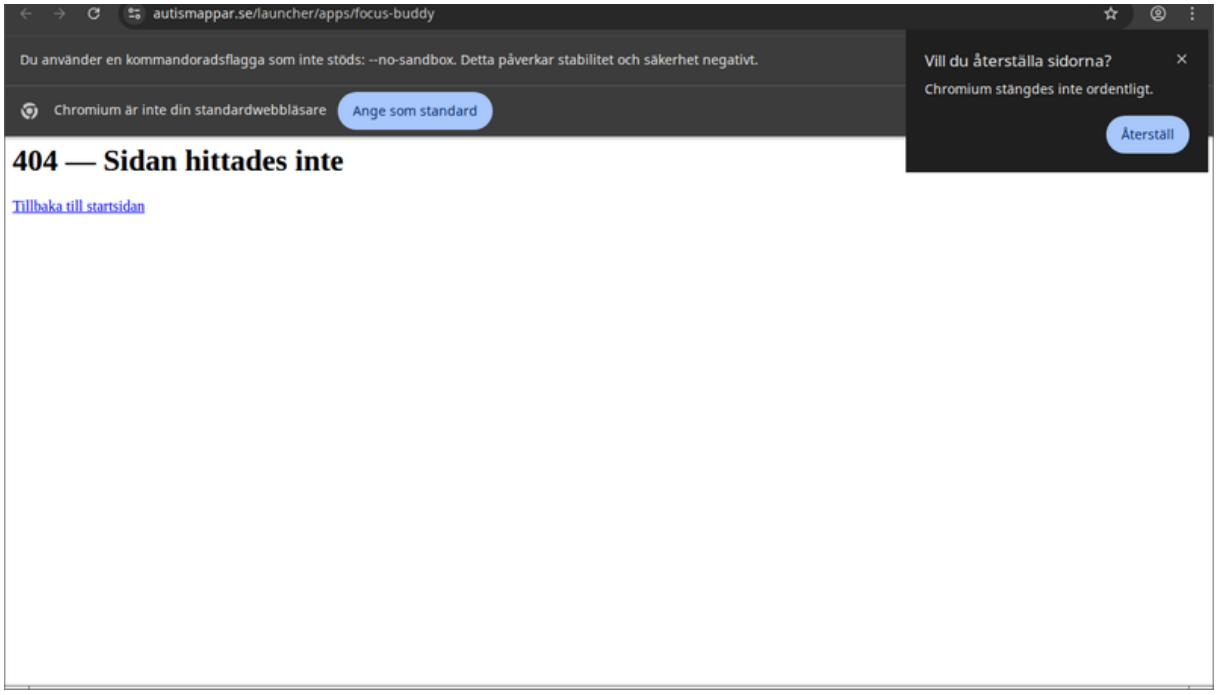
A digital calm room with soothing activities and sensory tools. Breathing exercises, calming sounds, and visual relaxation tools for moments of stress.



autismappar.se/launcher/apps/calm-room

Focus Buddy

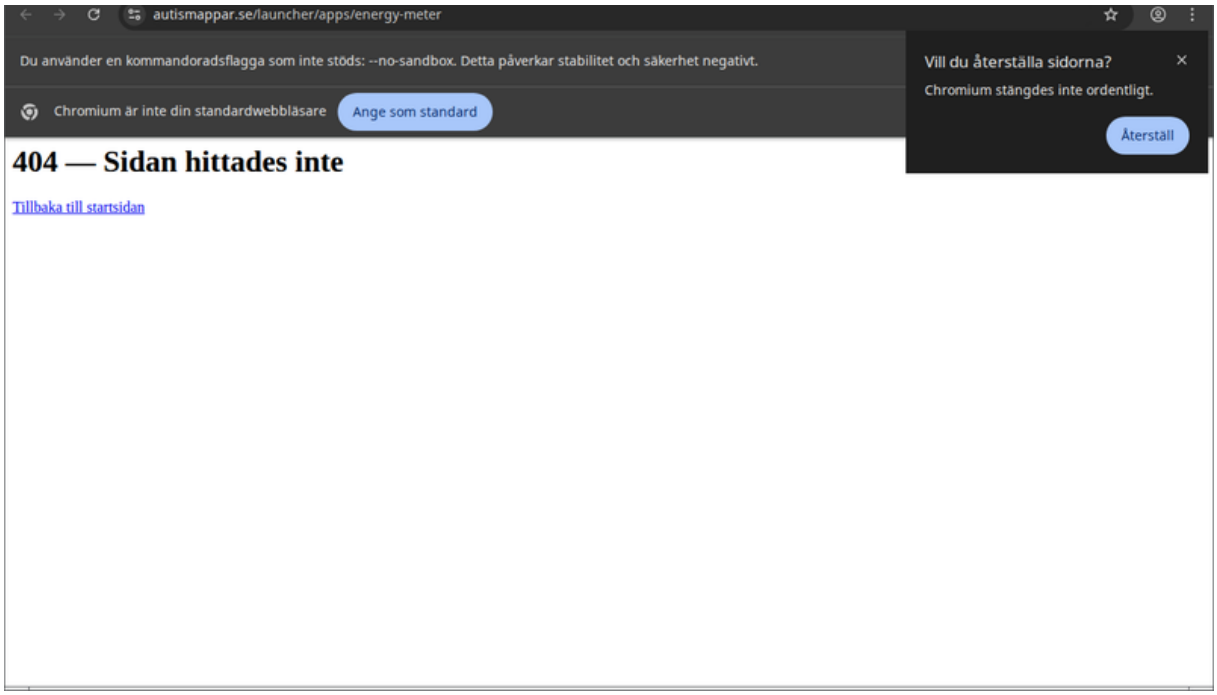
Pomodoro timer with task list and ability to park thoughts. Helps children focus on one task at a time with structured work sessions and breaks.



autismappar.se/launcher/apps/focus-buddy

Energy Meter

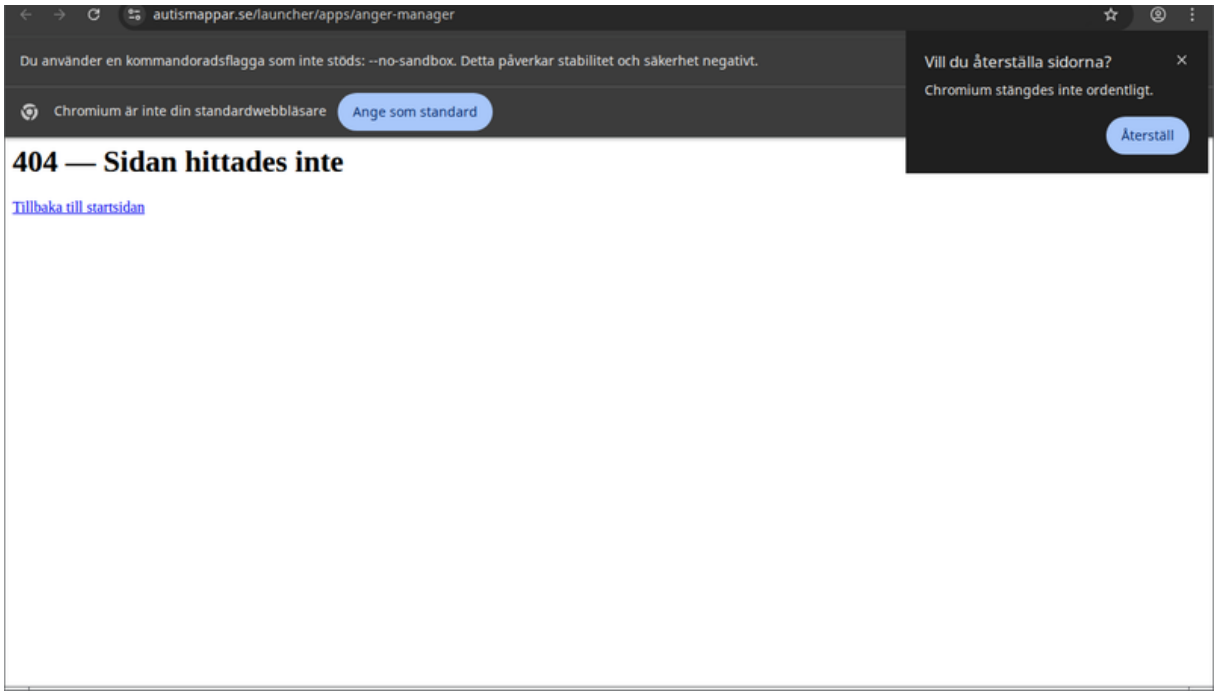
Track energy levels throughout the day with a visual meter. Helps the child and their surroundings understand when energy is low and rest or a break is needed.



autismappar.se/launcher/apps/energy-meter

Anger Manager

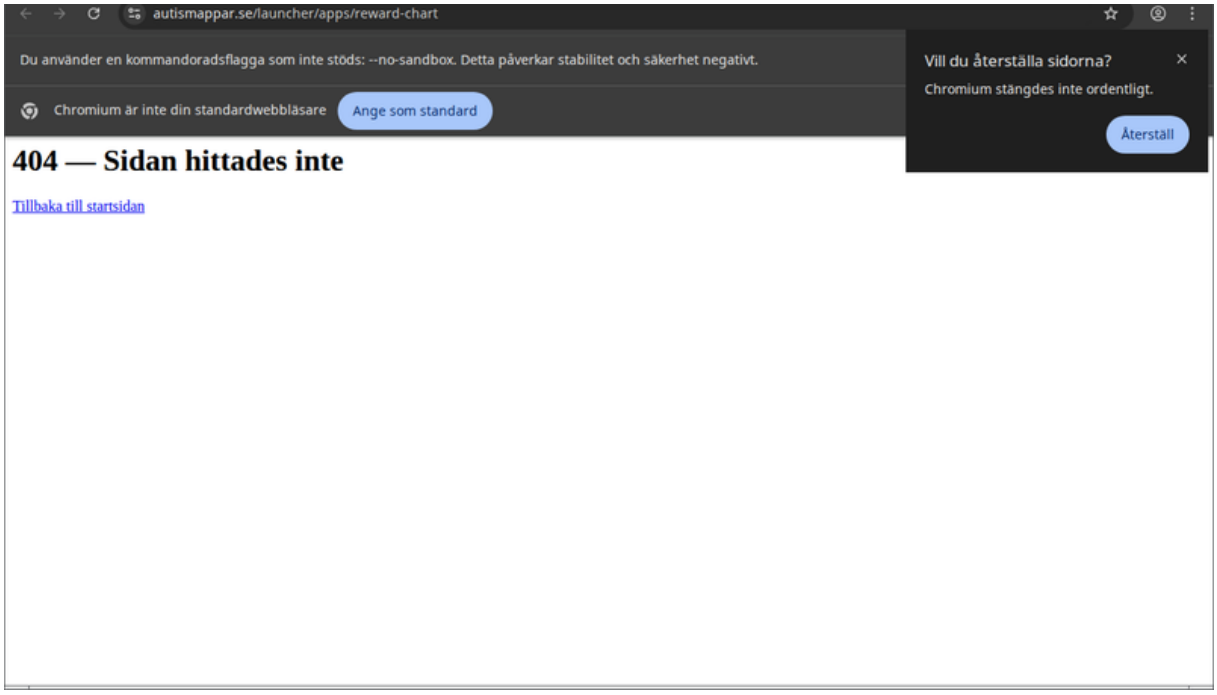
An anger thermometer that helps children identify anger levels and choose calming strategies. Visual tools and step-by-step techniques for managing strong emotions.



autismappar.se/launcher/apps/anger-manager

Reward Chart

Earn stars and rewards for positive behaviors and good habits. A motivating visual system that reinforces desired behavior through clear feedback.



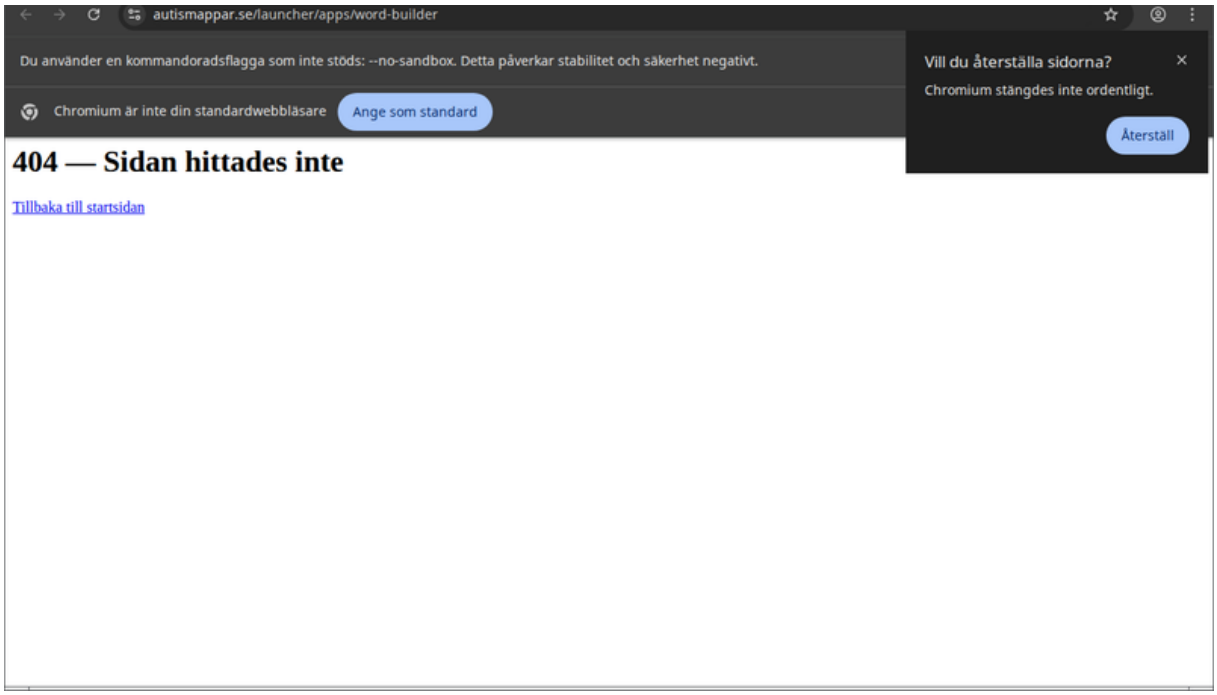
autismappar.se/launcher/apps/reward-chart

Learning

6 apps

Word Builder

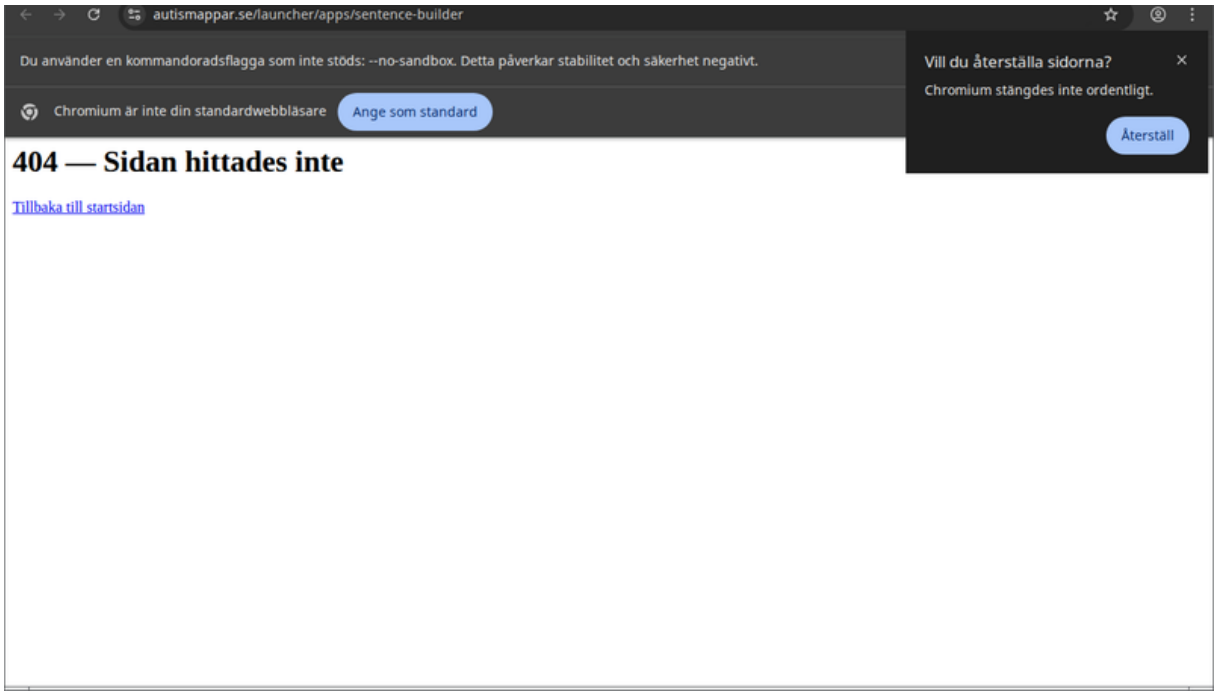
Build words letter by letter with visual and audio support. Perfect for practicing spelling and phonics in a playful way with immediate feedback.



autismappar.se/launcher/apps/word-builder

Sentence Builder

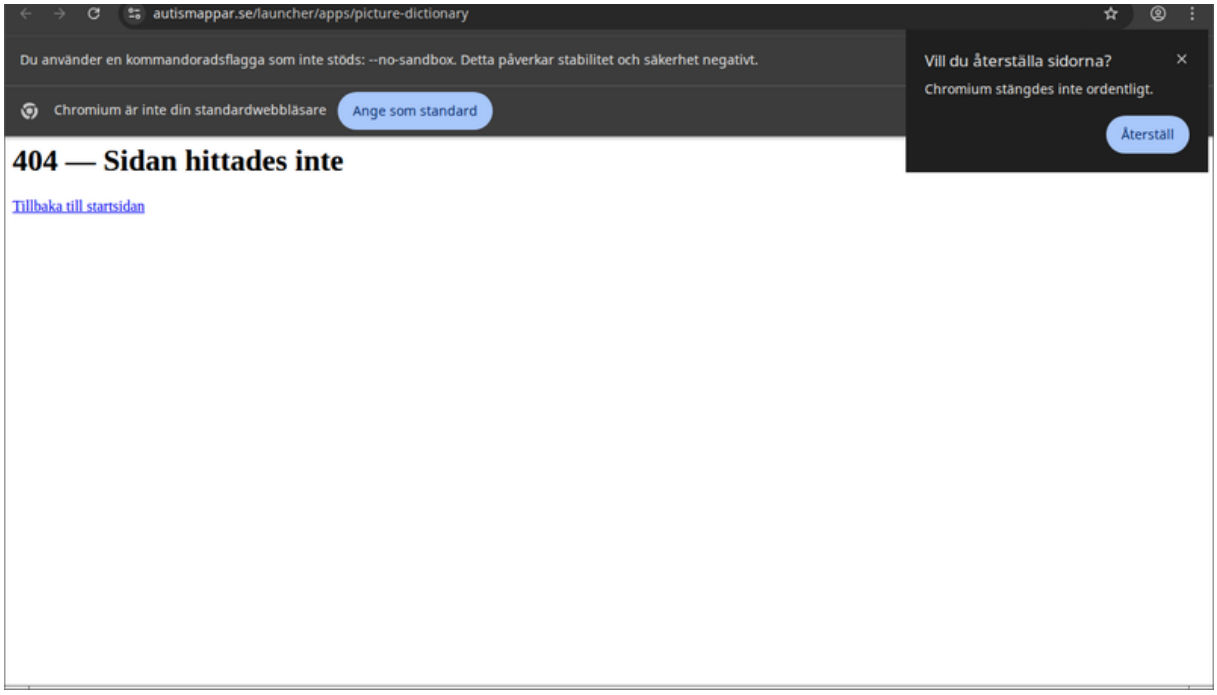
Build sentences with color-coded word cards. Each word class has its own color, helping children understand sentence structure and grammar visually.



autismappar.se/launcher/apps/sentence-builder

Picture Dictionary

Browse everyday words with pictures, sounds, and categories. Test your knowledge with built-in quizzes. Perfect for building vocabulary.

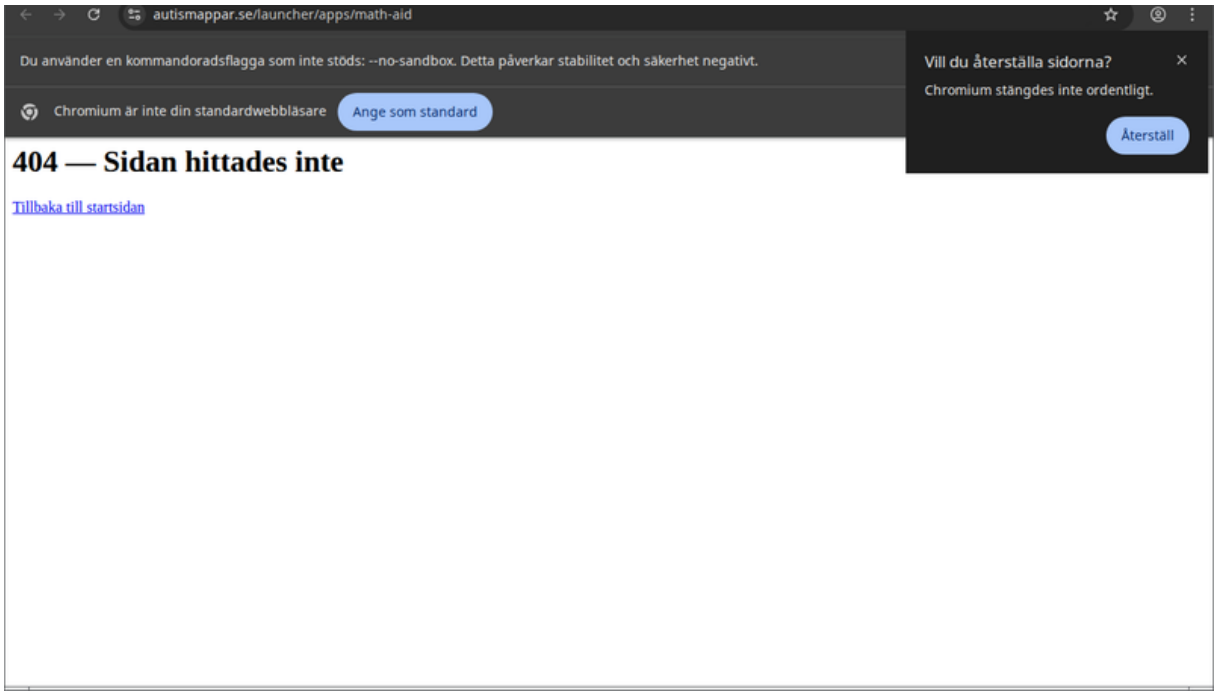


autismappar.se/launcher/apps/picture-dictionary

Math Aid

1+2=

Visual mathematics with concrete objects. Makes addition, subtraction, and other operations understandable by visualizing quantities and calculations.

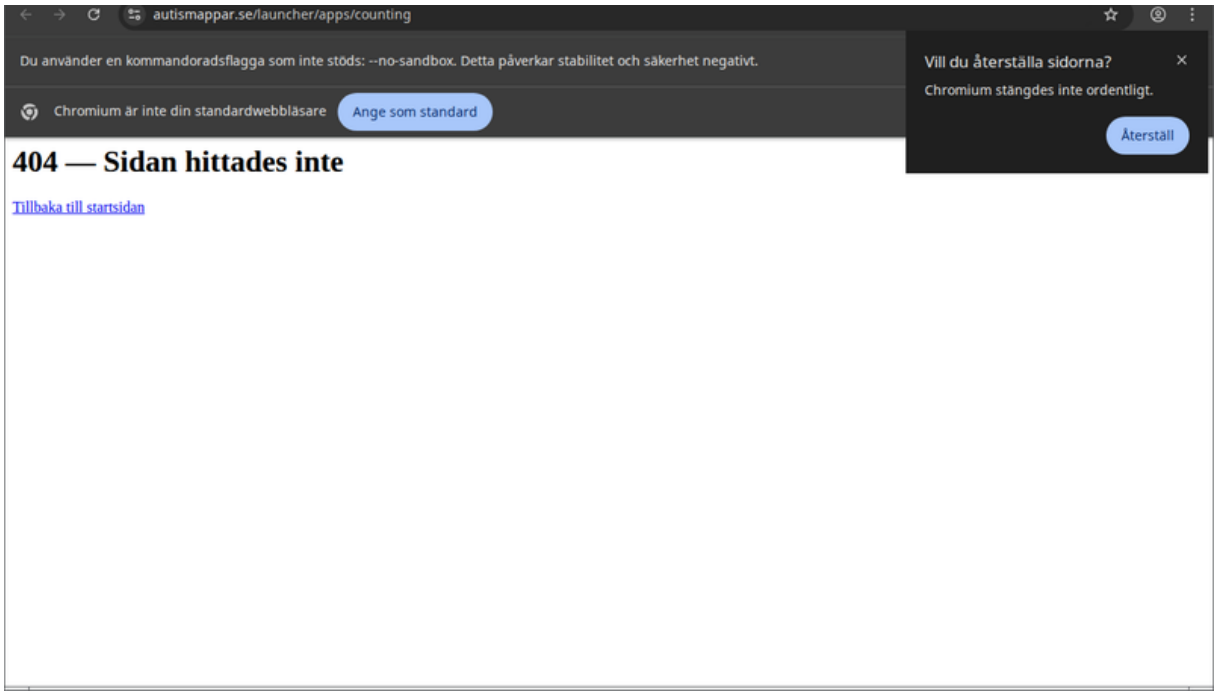


autismappar.se/launcher/apps/math-aid

Counting

1 2 3

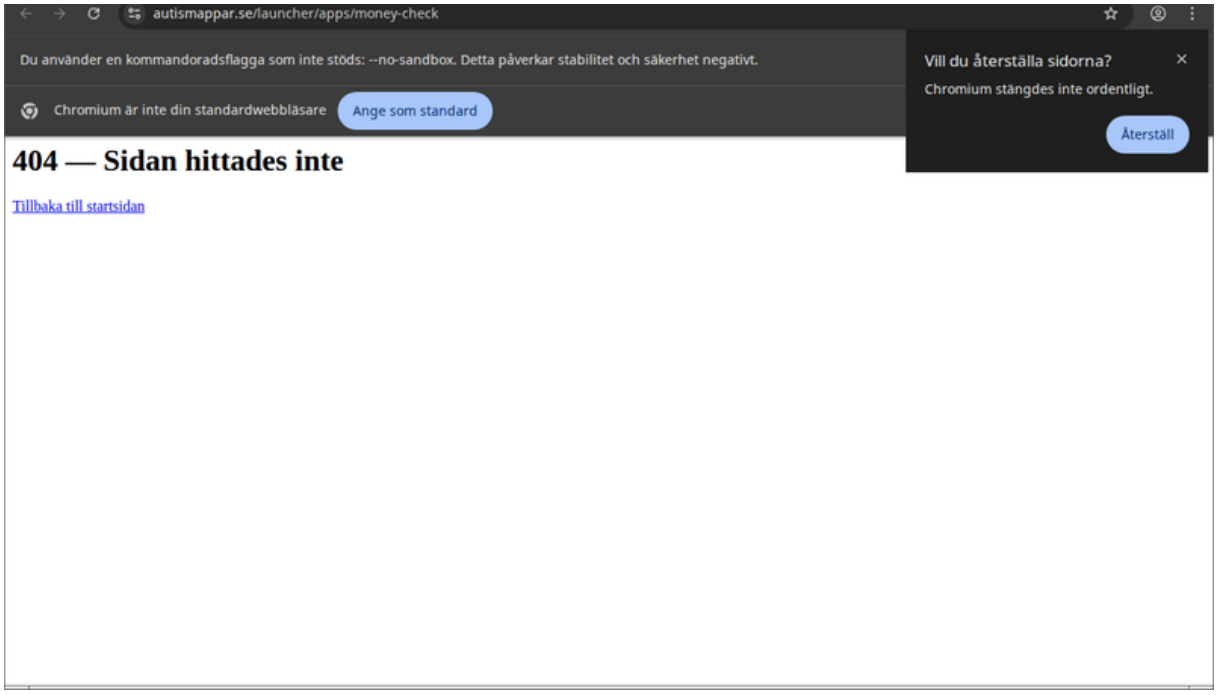
Practice counting with visual, concrete objects. Children count by clicking and watching quantities grow. Adjustable difficulty from simple numbers to larger amounts.



autismappar.se/launcher/apps/counting

Money Check

Learn about Swedish money and making change. Practical exercises with coins and bills that build financial understanding.



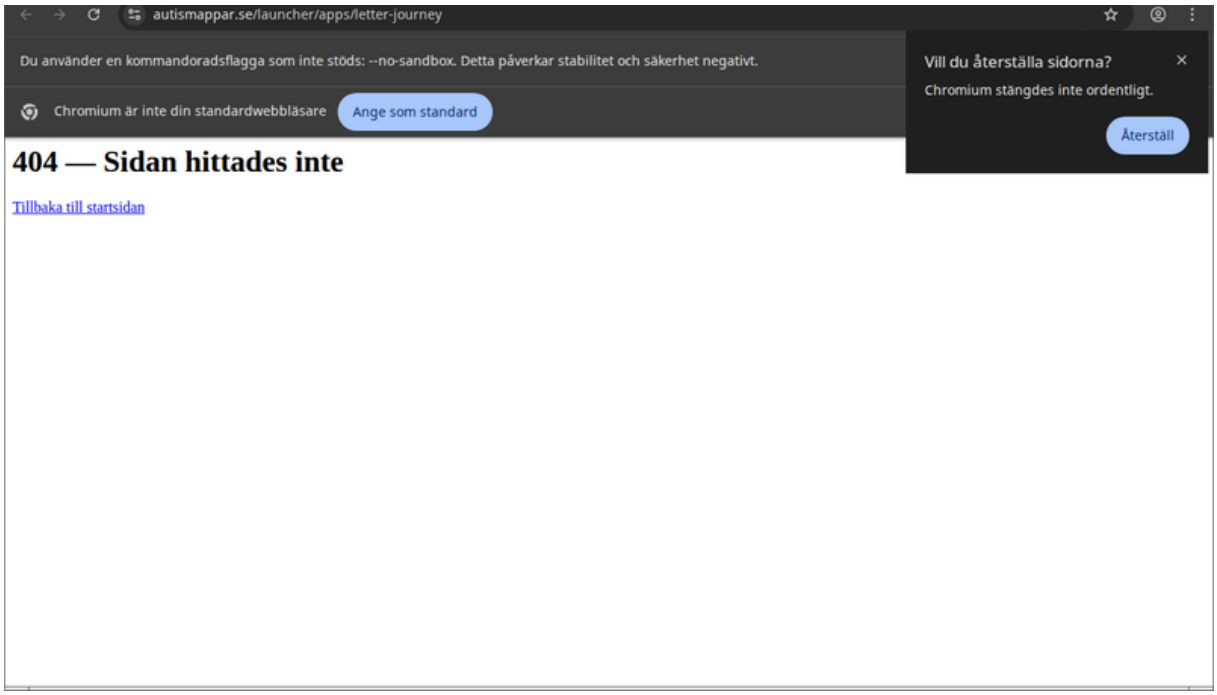
autismappar.se/launcher/apps/money-check

Speech & Dyspraxia

11 apps

Letter Journey

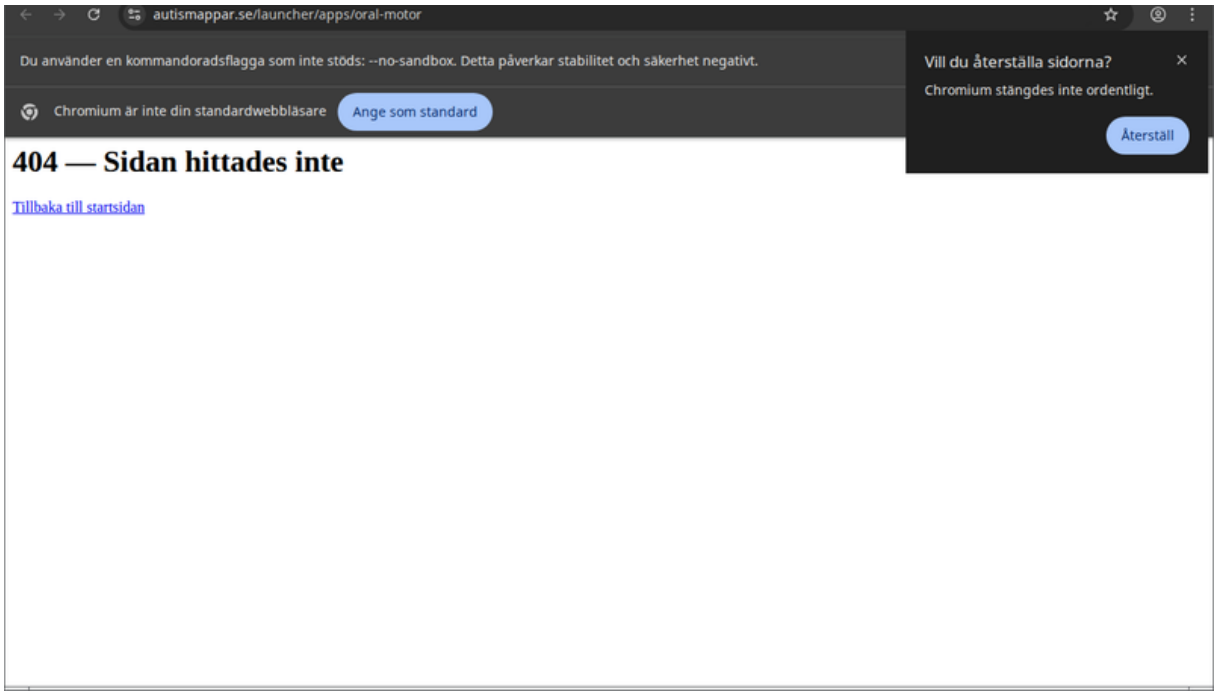
Learn letters with phonetics and animation. Each letter is presented with sound, shape, and examples. Interactive exercises make learning engaging.



autismappar.se/launcher/apps/letter-journey

Oral Motor

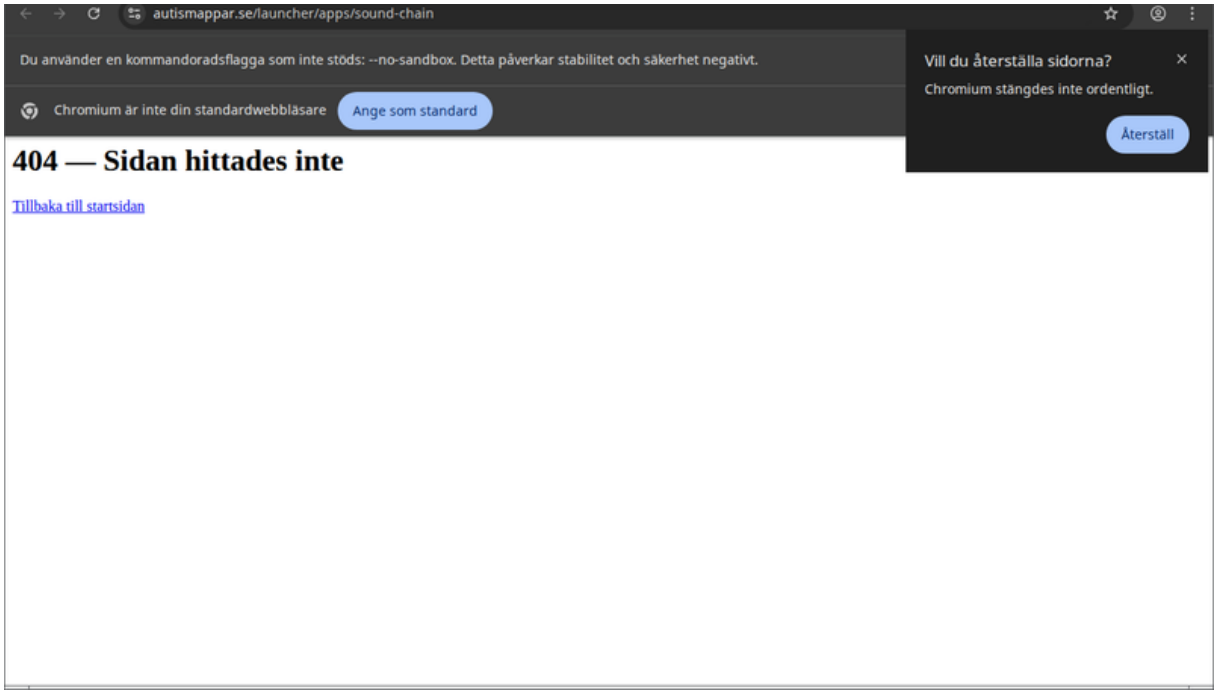
Practice oral motor movements that strengthen speech — tongue, lips, jaw, and breathing. Animated instructions make exercises fun and easy to follow.



autismappar.se/launcher/apps/oral-motor

Sound Chain

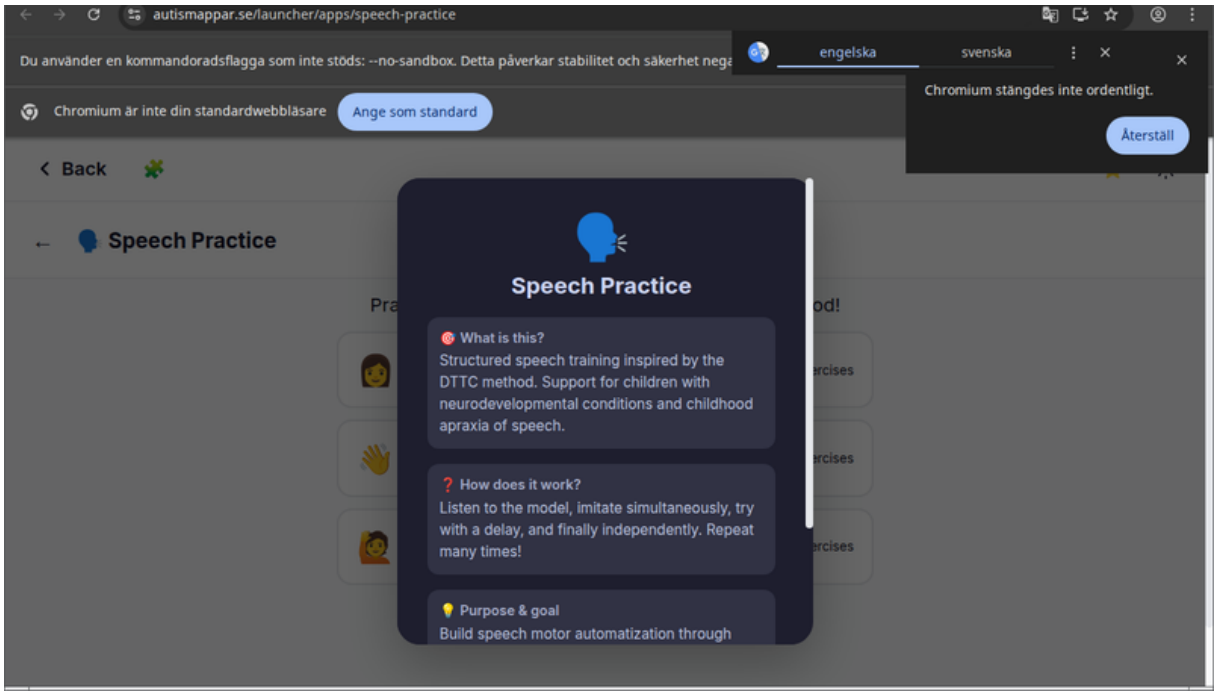
Chain individual sounds into syllables and words with visual chain links. Children see how sounds build on each other to form meaningful words.



autismappar.se/launcher/apps/sound-chain

Speech Practice

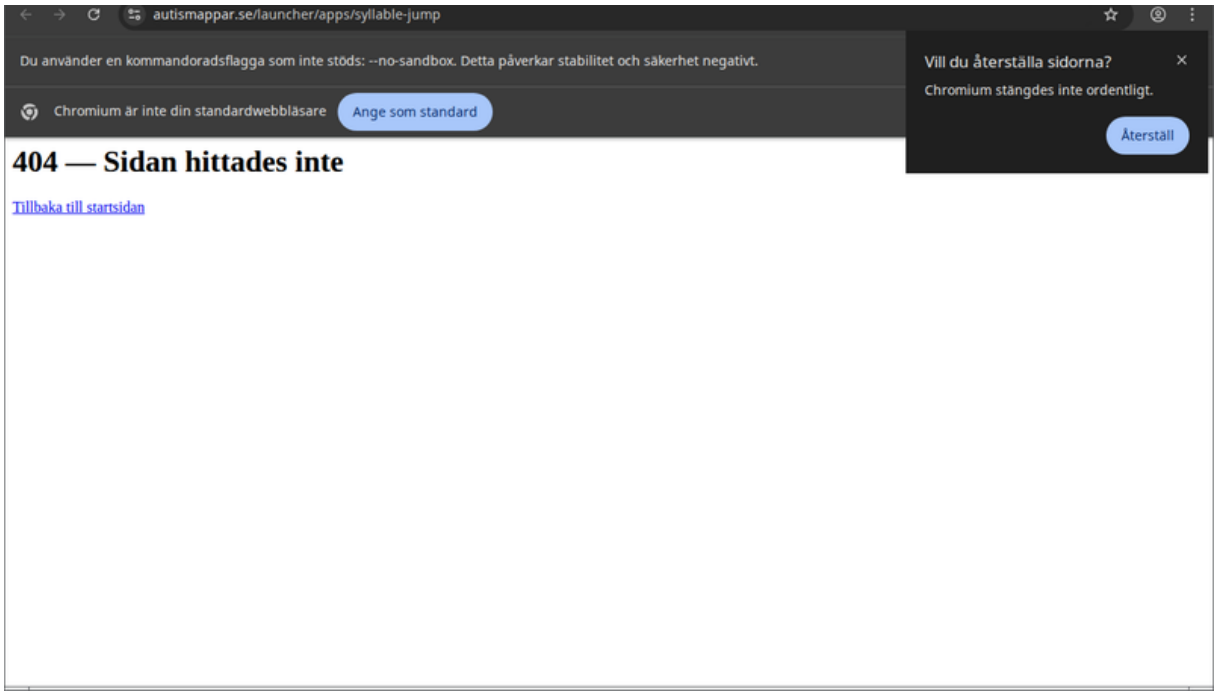
Structured speech training based on the DTTC method (Dynamic Temporal and Tactile Cueing). Children listen, imitate, and practice with visual support and progression.



autismappar.se/launcher/apps/speech-practice

Syllable Jump

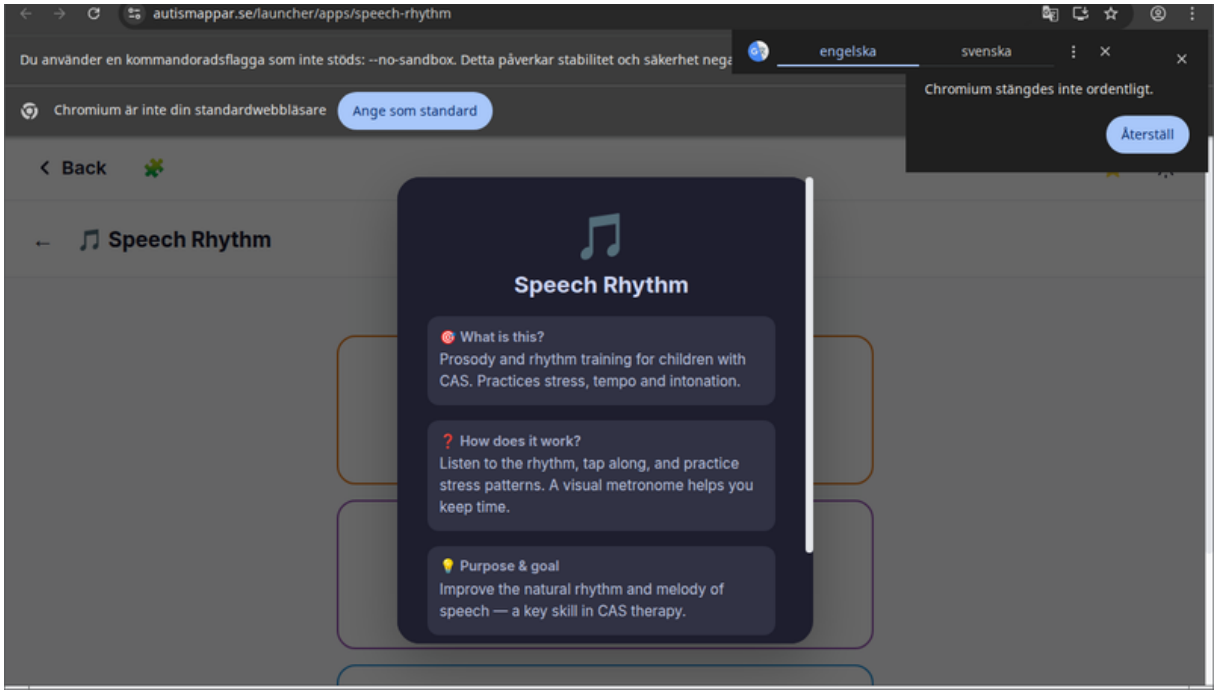
Jump through syllables, clap the rhythm, and build words. A motor and auditory exercise that helps children break apart and put together words.



autismappar.se/launcher/apps/syllable-jump

Speech Rhythm

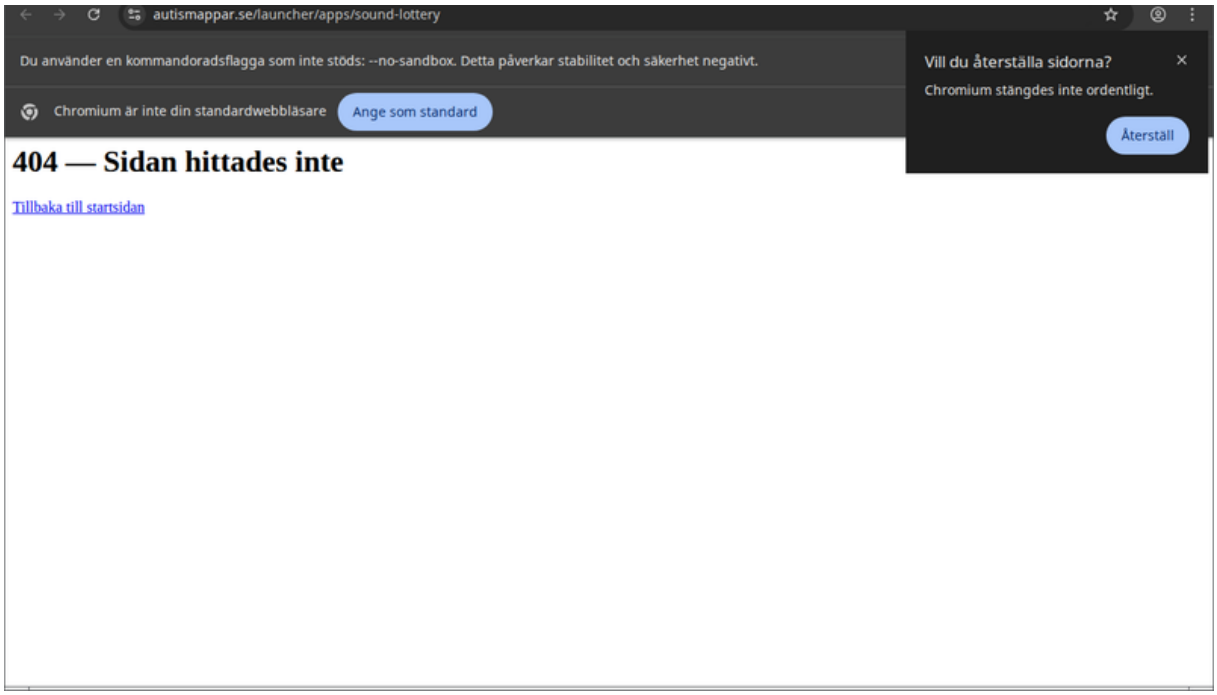
Prosody and rhythm training for childhood apraxia of speech. Practice stress patterns, intonation, and speech rate by tapping along to words and sentences.



autismappar.se/launcher/apps/speech-rhythm

Sound Lottery

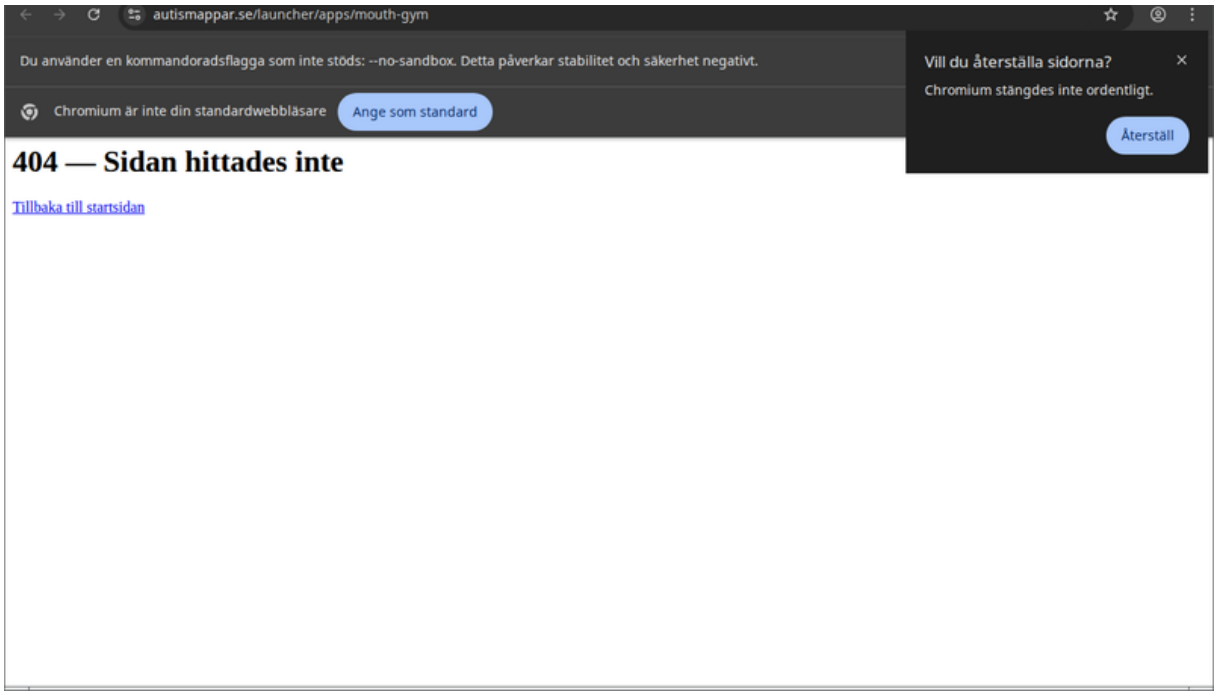
Spin the wheel and practice random phonemes. Progression from sounds in isolation to syllable, word, and sentence. Makes phonological training exciting.



autismappar.se/launcher/apps/sound-lottery

Mouth Gym

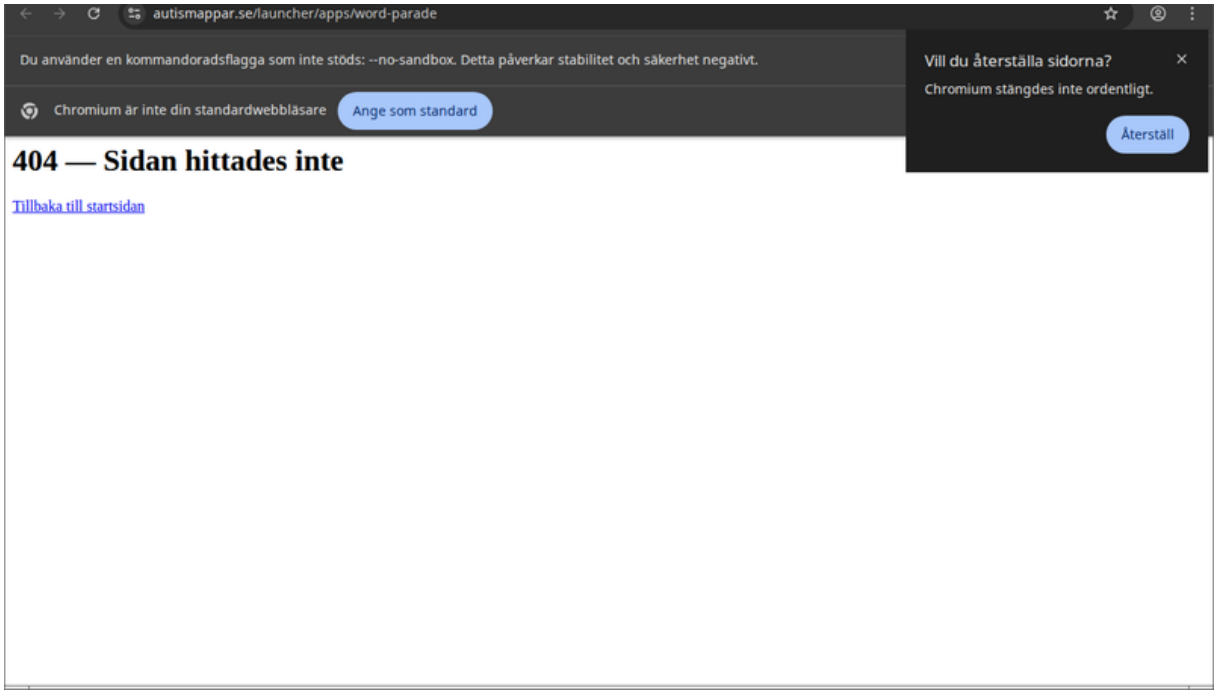
Animated visual guides for tongue, lips, and jaw based on PROMPT therapy. Clear instructions help children strengthen their oral muscles.



autismappar.se/launcher/apps/mouth-gym

Word Parade

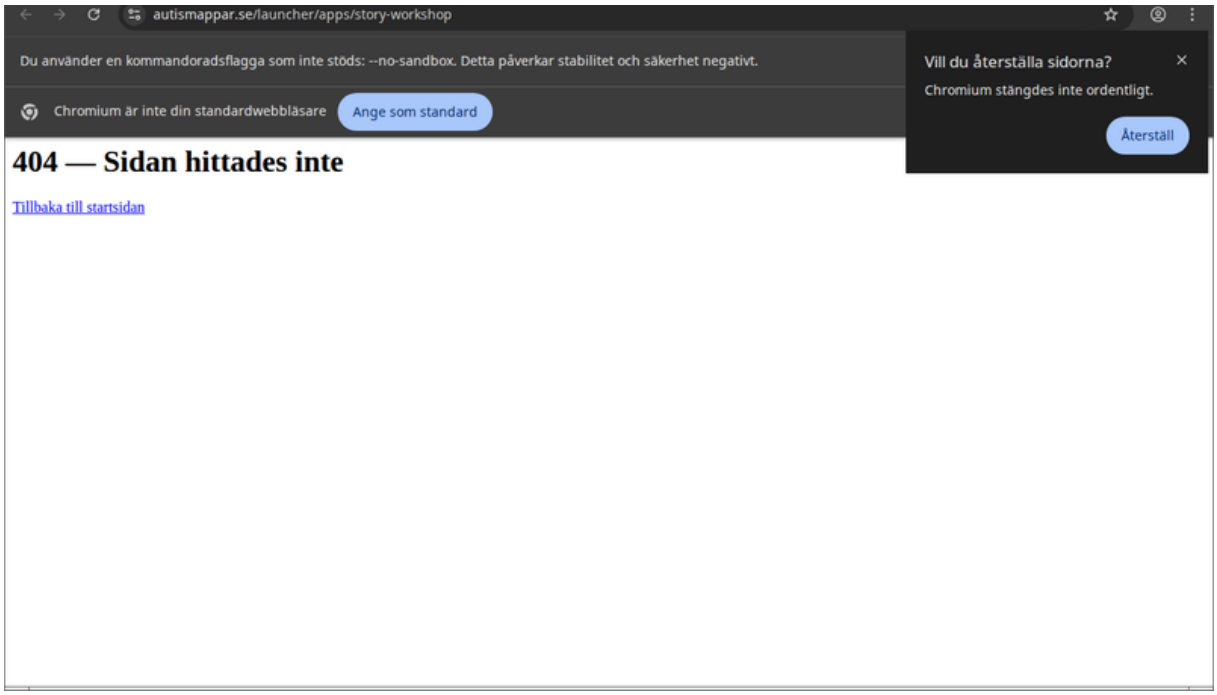
Minimal pairs — words that differ by just one sound. Critical phonological training that sharpens children's ability to hear and produce sound differences.



autismappar.se/launcher/apps/word-parade

Story Workshop

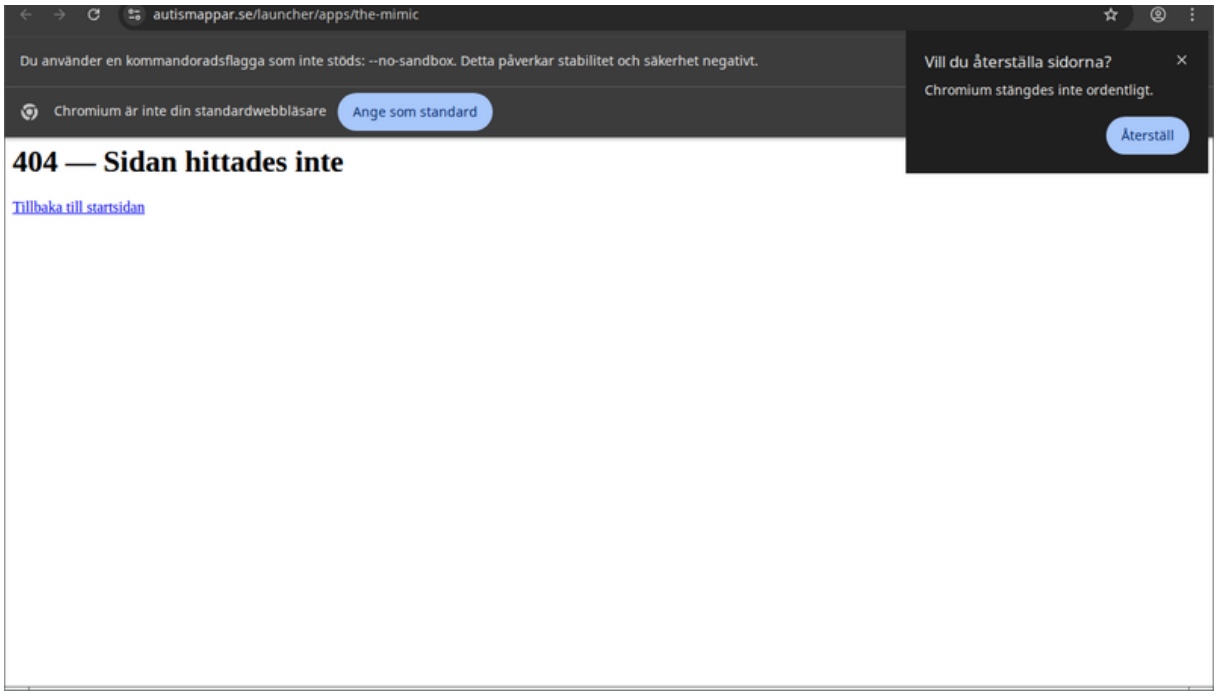
Narrative speech practice where children build simple stories with picture sequences. Practice telling a story in the right order with visual support.



autismappar.se/launcher/apps/story-workshop

The Mimic

Listen and repeat with increasing complexity — from individual sounds to complete sentences. A core DTTC technique that builds speech production systematically.



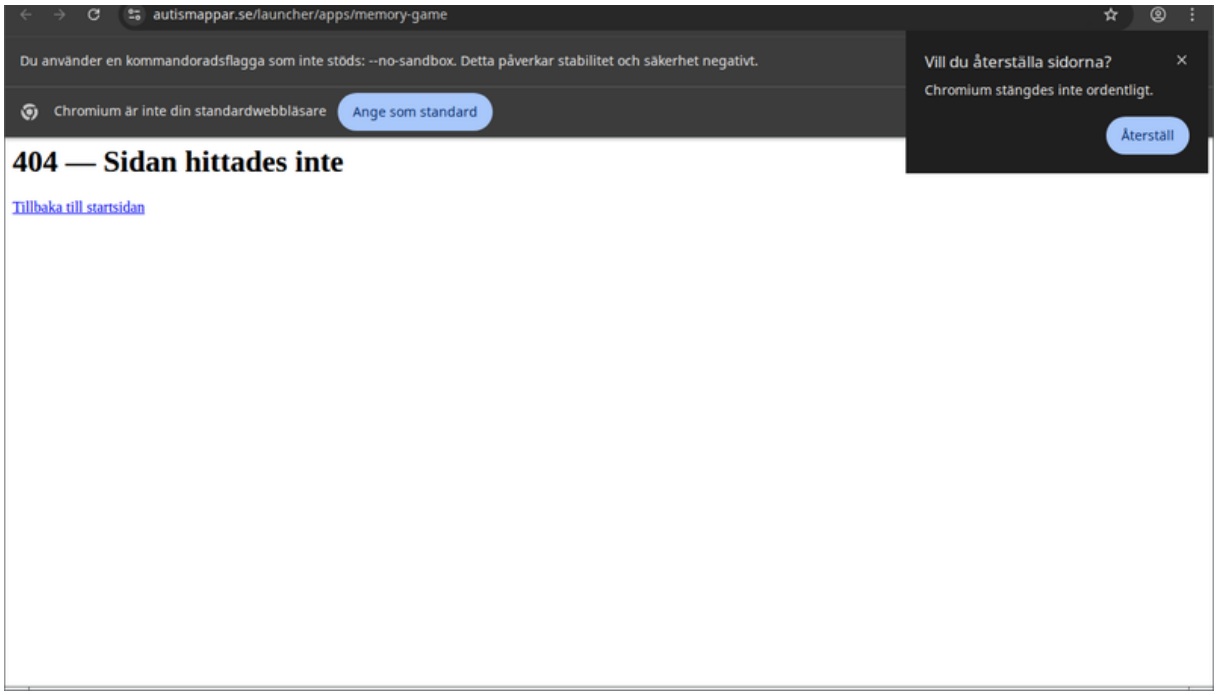
autismappar.se/launcher/apps/the-mimic

Memory & Play

5 apps

Memory Game

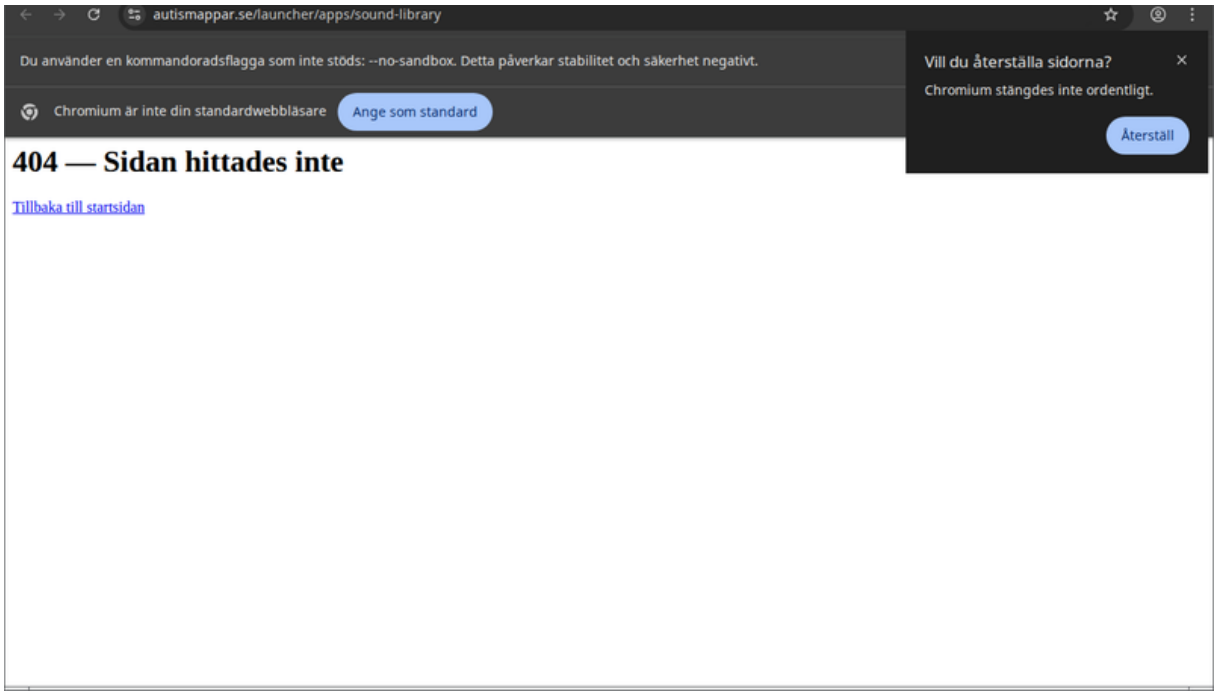
Classic memory game with pictograms — match pairs and train working memory. Adjustable difficulty with different numbers of cards and categories.



autismappar.se/launcher/apps/memory-game

Sound Library

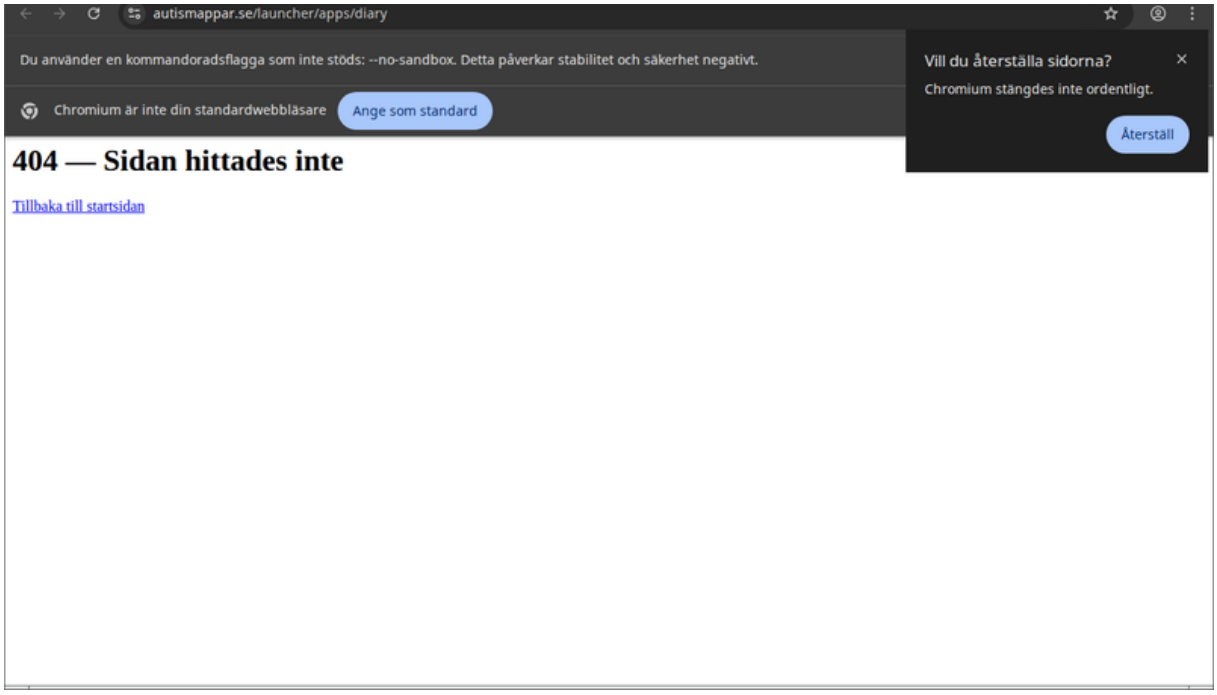
Explore fun sounds sorted by category — animals, vehicles, music, and more. Perfect for sensory exploration and auditory stimulation.



autismappar.se/launcher/apps/sound-library

Diary

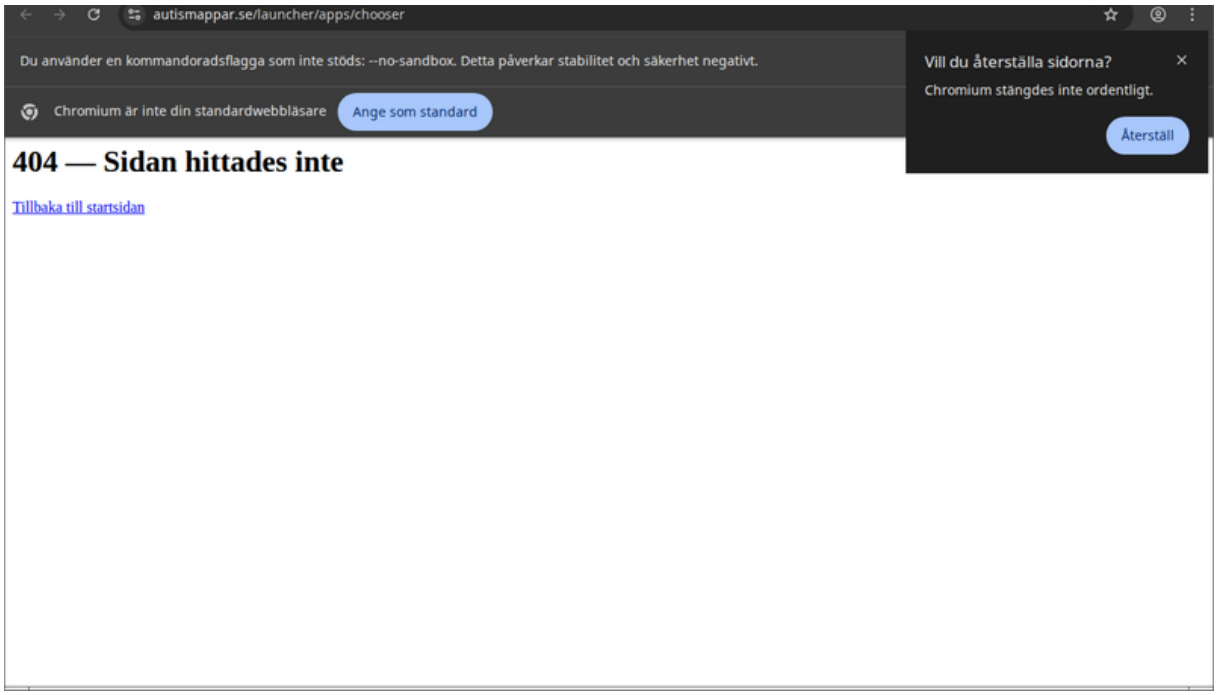
A visual diary where children can document their day with pictures and text. Supports emotional processing and builds narrative skills.



autismappar.se/launcher/apps/diary

Chooser

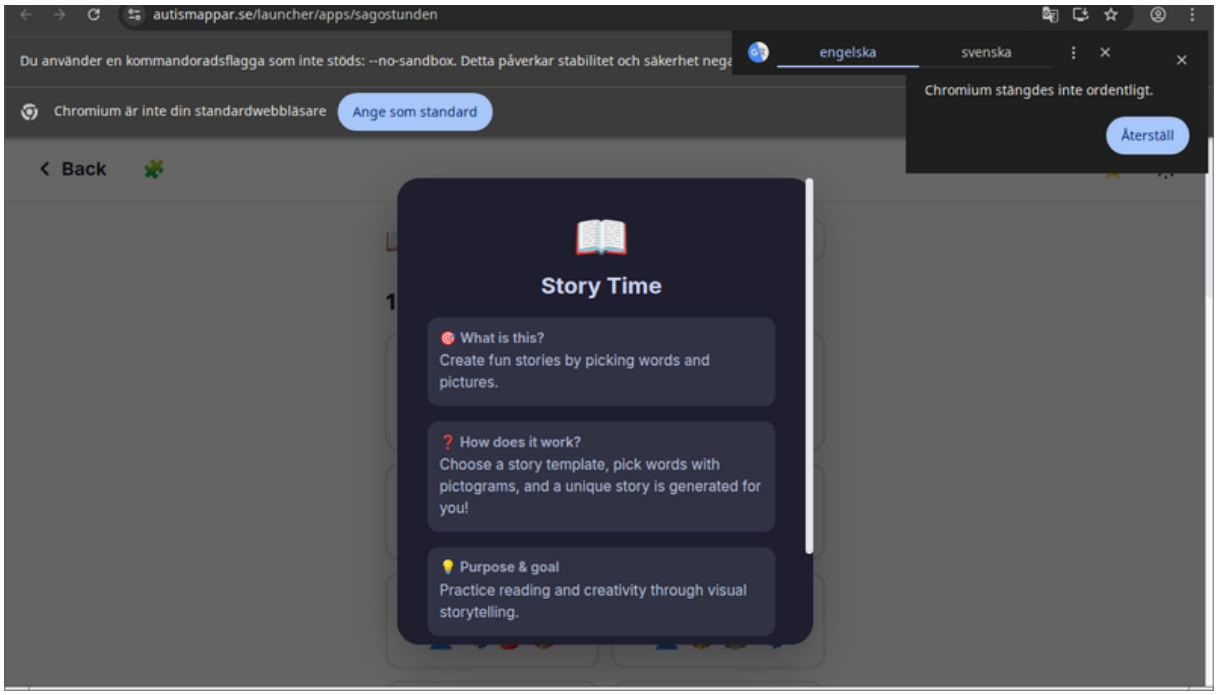
Help making choices between options with visual support. Perfect when children have difficulty deciding — presents clear alternatives.



autismappar.se/launcher/apps/chooser

Story Time

Create fun stories by choosing words and pictures. Interactive storytelling joy that encourages creativity and language development.



autismappar.se/launcher/apps/sagostunden

autismappar.se

All apps are free and open source.
Works in all modern browsers.
No installation required.

Developed with love for children with autism,
language disorders, and communication difficulties.
